

Mannington Ultra Grout & Tile Cleaner

DESCRIPTION

Mannington is excited to announce the launch of Ultra Grout Cleaner to assist with the cleaning and removal of grout haze that occurs during the installation of ADURA®Flex glue down LVT when installed with ADURA® acrylic grout. Our technical team worked to determine the best performing product that removes grout haze, as well as other haze ruminants, dirt, and grime.

Ultra Grout Cleaner is water based and non-acidic, it helps surfaces resist future build-up. It's a multi-purpose solution to help clean the floor after the installation is complete. It works fast, goes a long way, and will not harm most surfaces, even with repeated use.

FEATURES

- Removes ADURA® Acrylic Grout haze
- Removes some epoxy, urethane, and cement grout haze
- Cuts through grease, fingerprints, dirt, and grime
- Rejuvenates stone, tile, engineered stone, ceramic tile, porcelain tile, glass tile, sinks, tubs, stainless steel, chrome, and painted surfaces

SUBSTRATE PREPARATIONS

Due to the differences of each surface, several inconspicuous test patches should be completed to assure maximum performance. User must determine the suitability of the product for their intended use.

DIRECTIONS

Ultra Grout & Tile Cleaner can be used undiluted for difficult jobs or diluted as much as 5-1 with clean water depending on the severity of the job. Apply Ultra Grout & Tile Cleaner with a spray, towel, mop or brush directly to the surface and allow to sit for 3-20 minutes depending on the severity of the job and the material that needs to be cleaned from the surface. Wipe dry. For more difficult jobs agitate by scrubbing the substrate. Ultra Grout & Tile Cleaner can sit on surface up to 20 minutes. Wipe clean using a clean dry microfiber cloth or towel. No rinsing is necessary for most jobs.

For grout haze removal, allow Ultra Grout & Tile Cleaner to sit until the grout begins to loosen. Agitate periodically using a soft brush to help loosen grout haze. Rinse with clean water to remove all grout haze and residue from the surface. If first application does not remove desired substances, repeat until the substance is lifted.

COVERAGE

Coverage varies but under typical use Ultra Grout & Tile Cleaner will cover approximately 40 - 88 Sq. ft. per quart.

(3.71 -8.17 square meters per .946 Liters).

PACKAGING

Size: 32 oz per Piece, 6 per Carton, 13.5 Pounds

SAP code: 429361 Order code: 803970

PRECAUTIONS

Wear protective gloves and eye/face protection. Use only in a well-ventilated area. Call a POISON CENTER or doctor/physician if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Store in a well-ventilated place.

Hazard Statement: Avoid inhalation and prolonged contact with skin. Disposable gloves and safety glasses are recommended at all times. Store in upright position. Use in a well ventilated area.

Review SDS sheet prior to use.
