

### What You Will Need

- Square Scrub EBG-20/C PIVOT
- Microfiber Carpet Cleaning Pad
- Square Scrub<sup>®</sup> Encapsulating Carpet Cleaner
- Upright Floor vacuum with a fresh clean bag. Must be Carpet and Rug Institute Certified.
- Spray bottle or Pump-Up Sprayer

Dry vacuum carpet area to be cleaned by making 2 passes at about 2 feet per second with a CRI certified vacuum to remove any loose soil.

Remove all the weights from your Square Scrub<sup>®</sup> EBG-20/C PIVOT machine.

Mix Square Scrub<sup>®</sup> Encapsulating Carpet Cleaner at 8 oz. per gallon in a sprayer of your choice. Pre spray the area to be cleaned. Allow chemical to dwell for 10 minutes prior to cleaning.

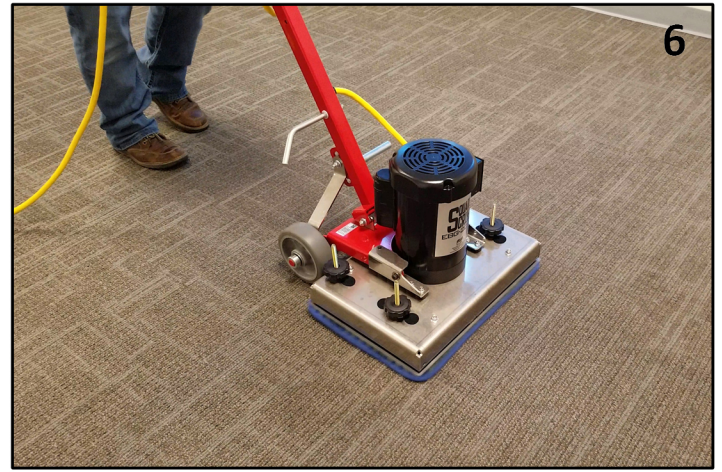

While the chemical is dwelling, submerge the Microfiber Carpet Cleaning Pad in Square Scrub<sup>®</sup> Encapsulating Carpet Cleaner and water solution. Once the pad is completely wet twist to wring out any excess chemical.

Tilt the machine back and remove the driver pad. Place the Microfiber Carpet Cleaning Pad onto the machine.

Move the machine at a rate of 1 foot per second and make 2 passes over each area to be cleaned. Periodically re-wet the Microfiber Carpet Cleaning Pad in Square Scrub® Encapsulating Carpet Cleaner.

Allow cleaned area to completely dry (at least 30 minutes).

Once the area is completely dry vacuum again with a CRI certified vacuum. Make 2 passes over each area at a rate of about 2 feet per second.
