

Rigid Ultra Plus Restraints

- Forged 7075 Aluminum Frame
- Keyless Double Lock
- Transport Channel
- Double Sided Keyway
- Replaceable Lock Set

Rigid Ultra Plus Restraints will control the most resistive subject. Their design provides a secure structure that allows an officer to stabilize without impact. The rigid configuration offers the most restrictive structure of the ASP Tactical Series. The Ultra Plus provides exceptional security with keyless double locking. It removes both lateral and linear mobility. For this reason, Rigid Cuffs are ideal for courtroom or airline restraint.

Rigid Ultra Plus Restraints feature a reinforced bridge in the center of an ergonomic grip. The contoured hand guard maintains a clear path to the bow guides. As with all ASP Tactical Handcuffs, the Rigid Ultra Plus design incorporates a forged 7075 alloy frame, high visibility double lock indicator, high contact conical bow, radiused edges, increased range of adjustment for both large and small wrists, smooth bow action and single direction unlock. The double lock is on the edge of each cuff. Activation is rapid and positive. The radiused design reduces injury potential from excessive lateral stress. Thin. Lightweight. Rigid Ultra Plus Restraints. Providing officers with a new hold on control.

Rigid Ultra Plus Restraints . . . Keyless Double Lock

Background

- Precision forged
- High contact face
- No sharp edges
- Lightweight
- Interchangeable Lock Sets
- Recessed keyway
- Two-sided double lock
- Double lock indicator (colored)
- Two-sided lock release
- One-direction single and double lock release

Specifications

Weight		
Steel	12.4 ounces	352 grams
Aluminum	10.5 ounces	298 grams
System	Replaceable Lock Set	
Construction	Forged aluminum	
Edge Radius	.035" minimum (1 mm)	

Exo Case Specifications

Length	9.25"	235 mm
Width	3.75"	95 mm
Thickness	1.25"	32 mm
Weight	12.8 ounces	363 grams
Cuff Retention	Automatic	
Cuff Release	Push-button	
Key Pocket	Yes	
Handcuff Key	Included	
Belt Loop	Adjustable	
MOLLE Compatible	Yes	

Frame

- Computer designed
- Precision forged
- Bow guides
- Beveled keyways
- Hardcoat anodized

Bridge

- Reinforced
- Ergonomic grip

Lock Set

- Replaceable
- Dual keyways
- Stainless security block
- Stainless security posts
- Color coded double lock indicator
- Dual release lock bar (pawl)
- One pawl (Yellow)
- Two pawl (Blue*)
- Three pawl (Green)
- Single spring double lock bar
- Hardened keyways

*Requires a Custom Key

Bow

- Conical geometry
- Integral frame track
- Deep set teeth
- High contact face
- Serial numbered
- Stainless pivot pin

Integrated Transport System Compliant

- Facilitates safe transport
- Facilitates humane transport
- Rapid application and removal
- Applied or removed while cuffed
- Ultra secure (2,187 key combinations)
- Optional welded chain waist belt
- Optional non-cut fabric waist belt
- Compact
- Lightweight

Warranty

Limited Lifetime

Exo Cases are compact and rugged. The Rigid Exo case rotates 180° and locks restraints in place without the need of an attachment strap. Cuffs can only be accessed by means of a two stage release.

Protecting those who protect
