Dot USB
· Exceptionally Small
· Rotary Activation
· Micro USB Rechargeable
· Hardcoat Anodized
· Bright Dip Anodized

| FL 1 STANDARD				
130 LUMENS	30min	43m	2m	

The Dot was designed as the world's smallest full function professional micro USB rechargeable flashlight. Ergonomics of the Dot create an exceptional Every Day Carry (EDC) illumination tool. Lightweight and compact, the light can be carried in the pocket or on a keychain.

The surface of the Dot is black hardcoat anodized. Blue or red consumer lights are also available. Each Dot is accented by a gold band, split ring and Detachable clip. The design is attractive, yet rugged. Twin body cuts combine with a serrated bezel to provide smooth rotary activation. Twist the bezel clockwise to activate a 15 lumen low output and continue rotating to produce a 130 lumen high output.

The Dot may be connected with the included Micro Flex cable to any computer, USB Car or USB Wall Charger. It may also be recharged with a micro USB charge cord. During charging, the indicator blinks red. It turns to constant green when the Dot is fully charged.

Dot USB . . . Simply Brilliant

Activation Bezel
Charge Indicator
Silicone O-Ring
Gold Accent Ring
Lithium-Ion Battery
Silicone O-Ring

XPG LED

TIR Optic

LITHIUM-ION RECHARGEABLE

Crescent Attachment

Activation Cuts
Micro USB Port
Fine Cut Body Knurling

Detachable Clips allow attachment and convenient removal of the Dot.

Background
Designed to professional law enforcement standards
Aerospace aluminum construction
Precision machined
No sharp edges
O-ring sealed for maximum water resistance
Distinct profile

Specifications
Length	1.872"	47.55 mm
Diameter	.575"	14.60 mm
Weight	.50 ounces	13.60 grams
		(with batteries)
System	3.7 volt	
High Output	130 lumens	
Low Output	15 lumens	
Run Time	30 minutes	

Body
6061 T6 high strength aluminum
Matte black hardcoat
Coated threads for durability
Exterior and interior scratch and corrosion protection
Linear profile
Machined grip

Power Cell
Lithium-ion
Ten year shelf life
Leak proof
Vibration resistant

Switch
Rotational contact
Quick and positive switch location under stress
O-ring sealed
PC board positive circuit contact
Rotate one full turn to prevent accidental activation

Reflector Assembly
Extremely durable
Non-dulling metalized surface
Computer calculated parabola
Long distance penetrating beam
Room illuminating halo
Tempered optical glass lens
Gasket sealed

LED Assembly
Proprietary heat management
Custom driver
Smart chip technology
Gasket sealed

Charging
Micro USB port
Micro Flex connector
Charge indicator
Flashing red charging
Solid green fully charged

Warranty
Limited Lifetime

An LED indicator turns from flashing red to solid green when the Dot is fully charged.

The Dot is the smallest, full function, lithium powered, LED light in the world.

The included Micro Flex allows Dot charging with any computer.
