

## GRAPPLER

### USES & APPLICATIONS

This is the best body or object retrieval tool, one step up from the Crook. The ends are blunt for minimum damage. This is particularly useful on unusual shaped retrievals where maximum engagement is critical.

### HOW TO USE

The sleeved fitting is designed to slide over the pole top fitting which secures it in place using a double sprung button mechanism. Use by extending the pole to the casualty with or without the clamping float (depending on distance). Once engaged, normal procedure applies.

### MAINTENANCE & PRECAUTIONS

The sleeve fitting should be regularly tested on the pole top fitting as damage will render the attachment from securely fitting.

### SPECIFICATIONS

- Material: Stainless Steel
- Hook Radius: 12cm
- Length: 29cm
- Weight: 550g
- Across 2 hooks: 23cm
