

ROPE BLADE

25

USES & APPLICATIONS

For use where a rope/line needs to be severed. Also used to cut other materials i.e. harnesses, strapping, fishing wire and netting.

HOW TO USE

Attach the Rope Blade attachment onto the gold collar and remove the protective sleeve to expose the blade. Extend the pole to the required length and place over the material. Then pull down using the pole. The blade can be removed and replaced once worn/blunt.

MAINTENANCE & PRECAUTIONS

The sleeve fitting should be regularly tested on the pole top fitting as damage will render the attachment from securely fitting. Ensure the blade is covered after use.

SPECIFICATIONS

- Weight - 0.2kg
- Depth - 3cm (Mouth opening - 6cm)
- Blade Length - Standard "Stanley" blade
- Material - Aluminium
