

Heritage Series 200, 240, Platform System II, Econoline II.

All long time industry standards for high quality affordable cash drawers, these models have once again been improved to meet the changing needs of the POS marketplace.

By adding a quick disconnect cable feature to these industry workhorses, MMF makes it possible to quickly change the printer interfaces of these drawers in the field. Collectively known as the **Heritage Series** all models feature MMF's **Kwick Kable**® interface* which allows these drawers to be used with any standard POS receipt printer simply by using the appropriate printer cable. All models are CE and FCC approved and OPOS, JPOS, UPOS and USB versions of all are available.

* optional Serial & USB interfaces available
