

Valeron

Duratran™ II Valeron Tag

- Recommended for outdoor applications
- Extremely tear resistant
- Resistant to moisture, chemicals, and cold temperature extremes
- Excellent print quality

Intermec's Duratran™ II Valeron Tag is an excellent choice when durability is a requirement. Valeron tags are ideal for outdoor use with the ability to withstand moisture, some chemicals, and cold temperature extremes. With the strength not to tear even when nicked, Valeron can be used with staples, wire, metal and plastic strapping and is the choice for such applications as:

- Lumber tags
- Steel tags
- Carpet tags
- Shipping tags
- Produce tags
- Brick Tags
- Valve tags
- Safety tags
- Inventory tags

Better Together: The Intermec media solution has added advantages when paired with Intermec printers:

- Co-engineered printers and media ensure consistent print quality and performance.
- Thermal transfer printability allows on-demand generation of durable tags, eliminating high cost and inventory obsolescence associated with preprinting.
- When Intermec media is used exclusively with Intermec printers, the Free Printhead Replacement Program offers significant cost savings.

Description

Polyethylene tag

Physical Attributes

7.5 Target

MD Tensile (lbs/sq in): 55

CD Tensile (lbs/sq in): 49

Ribbon Compatibility

TMX 1500

TMX 2200

Recommended for Outdoor Use

+1 year

Environment

Storage Temperature: 40° to 80°F

Storage Humidity: 35% to 75%

Shelf Life: 12 months

Service Temperature: -70° to +200°F

Typical Applications

- Exceptionally tear resistant
- Ideal for outdoor use
- Horticulture
- Lumber
- Steel tagging
- Excellent strength when wire attached or stapled
