LIQUOR STICKER Inventory & Security Seals

INVENTORY CONTROL: Apply consecutively numbered Liquor Stickers to every bottle that has a special control system pour spout. Management logs "out" each liquor bottle when it is issued to the bar. The brand name and issue date are filled in next to the corresponding sticker number. When empty, the liquor bottle with the spout and sticker still intact, is left by bartenders for management to log "in" the inventory logbook. Managers should check frequently to insure bottles not logged back "in" are still behind the bar.

SECURITY CONTROL: Control spouts are locked onto the liquor bottles with tamperproof Liquor Stickers. Managers are advised to spot check bottles behind the bar to verify Liquor Stickers have not been ripped or cut by bartenders attempting to remove control spouts to free-pour liquor.

SAMPLE LIQUOR BOTTLE INVENTORY LOG

Sticker Number	Brand	Date Out	Date In	Sticker Number	Brand	Date Out	Date In
1	Kahlua	11/12					
2	Well Vodka	11/12	11/13
