Description

3/4 Inch Cast Iron Gate Valve | Standard Handle | NPT Inlet

Fast flow control without splashing Padlockable handle Manual and self-closing models available
Excellent for dispensing non-flammable viscous liquids. Super rugged cast iron gate valves have a large, nearly straight bore with an oval discharge opening angled at 45-60° for fast flow of thick liquids without splashing. The machined and lapped brass faceplate provides smooth operation and a perfect seal. Glossy black lacquer finish.

Standard Gate Valve has short formed-steel handle.

NOTE: These gate valves are designed for liquids that have a minimum viscosity of 2,000 cPs.

The standard gate valve has short formed steel handle with 3/4 inch NPT inlet. Super rugged cast iron gate valves have a large, nearly straight bore with an oval discharge opening angled at 45°- 60° for fast flow of thick liquids without splashing. Excellent for dispensing non-flammable viscous liquids.

The machined and lapped brass faceplate provides smooth operation and a perfect seal. Glossy black lacquer finish.

An industry favorite for thick liquids

BayTec Containers Item Number 8700E75.
