Description

Cast Iron Gate Valve Bung Faucet | Self Closing Standard Handle } 4" Long Handle

Features:

- Description: Self Closing Standard Handle
- NPT Inlet Size: 3/4
- Weight: 2 lbs.
- Fast flow control without splashing
- Padlockable handle
- Manual and self-closing models

Excellent for dispensing non-flammable viscous liquids. Super rugged cast iron gate valves have a large, nearly straight bore with an oval discharge opening angled at 45-60° for fast flow of thick liquids without splashing. The machined and lapped brass faceplate provides smooth operation and a perfect seal. Glossy black lacquer finish.

Standard Gate Valve has short formed-steel handle.

A self-closing gate valve has 4-inch long cast iron handle for extra leverage and easier, more precise operation, and 2-inch NPT Inlet. Excellent for dispensing non-flammable viscous liquids.

Super rugged cast iron gate valves have a large, nearly straight bore with an oval discharge opening angled at 45-60° for fast flow of thick liquids without splashing. The machined and lapped brass faceplate provides smooth operation and a perfect seal.

Glossy black lacquer finish.

An industry favorite for thick liquids

Minimal restriction to fluid flow Padlockable handle NOTE: These gate valves are designed for liquids that have a minimum viscosity of 2,000 cPs.

Great Heavy Duty Drum Faucet By: Ben Jackson, September 24, 2018

This drum gate valve was so inexpensive that I did not expect much, but it is really heavy duty and of very good quality for a Drum Faucet. BayTec Customer Service was very helpful in helping me get the right faucet for my drum. Thanks.
