Description

Cast Iron Gate Valve - Lock Nut - 3/4 Inch NPT Inlet For dispensing non-flammable viscous liquids 2-Year Limited Warranty

Features:

- Fast flow control without splashing
- Padlockable handle
- Manual and self-closing models
- Excellent for dispensing non-flammable viscous liquids.

Super rugged cast iron gate valves have a large, nearly straight bore with an oval discharge opening angled at 45-60° for fast flow of thick liquids without splashing. The machined and lapped brass faceplate provides smooth operation and a perfect seal. Glossy black lacquer finish.

Lock Nut Gate Valve has lock nut and gasket. Gasket and nut tighten against the drum, which permits the valve to be turned to any desired direction for draining without breaking the seal.

This cast iron gate valve has a gasket and lock nut to tighten against the drum, which permits the valve to be turned to any desired direction for draining without breaking the seal. This cast iron gate valve has a 3/4 inch NPT inlet, excellent for dispensing non-flammable viscous liquids. Super rugged cast iron gate valves have a large, nearly straight bore with an oval discharge opening angled at 45° - 60° for fast flow of thick liquids without splashing. The machined and lapped brass faceplate provides smooth operation and a perfect seal. Glossy black lacquer finish.

Padlockable handle

NOTE: These gate valves are designed for liquids that have a minimum viscosity of 2,000 cPs.
