

55 Gallon Tilting Drum Dolly | Hard Rubber Casters

Features:

- Capacity (lbs.): 900
- Casters: Hard Rubber
- Weight: 23 lbs.
- Unique 10" tilting feature for residual liquid extraction
- Highly polished bright zinc finish for corrosion resistance
- For 55 Gallon steel drums

Simply depress the foot operated locking tilt mechanism to tilt the drum by 10". Includes four 3" Dia. x 1 1/4" W swivel casters and 48" nylon pull strap with a rubber-coated hanging hook. Welded steel construction with the zinc plated finish. Some assembly required.

Get this tilting drum dolly that helps you pump all the valuable liquid out of your 55-gallon drums. You simply depress the foot operated locking tilt mechanism to tilt the drum by 10° with a tilt capacity of 200 lbs. This drum dolly includes (4) 3-inch diameter x 1 ¼ inch wide hard rubber swivel casters and a 48-inch nylon pull strap with a rubber-coated hanging hook.

The nylon pull strap helps in transporting down aisles or over thresh holds. The tilting drum dolly is welded steel constructed with a zinc plated finish for corrosion resistance with a 900 lb. capacity. Some assembly is required.
