## Description

Polyethylene, for use with steel and polyethylene drums. This is an instant "on" - "off" control which provides smooth, fast flow with no dribble.

A 2" size will empty 55 gal. drum in about 3 minutes. Do not use above 125 degree F or in a heated container.

- Made of FDA compliant material
- 1/2 turn, positive on/off control

An excellent choice for use with foods as it is made with 100% FDA polyethylene construction.

This handy ergonomic faucet fits any American made 2" fine thread bung hole.

The bent handle helps you control the flow easier and has a large 2" opening for fast flow of liquids.

Not recommended for use with flammables or temperatures above 125° F. The 2" NPT(National Pipe Thread)faucet is commonly also known as a Fine Thread male fitting

These poly 2" faucets have a durable thick gasket to seal any potential leaks at bung inlet hole, where you insert the faucet.

Features:

Description: Gold, 2" polyethylene faucet, with an Ergonomic handle that bends out for your convenient use.

Weight: .75 lb.
