6. 1 petroleum based label, and spill kit instructions.

Absorbs over 25 gallons 30-gallon UN-Rated plastic overpack drum Store and ship used sorbents Unisorb Plus kit includes protective equipment for 2 workers You need to control spills fast. With Baytec FIRST RESPONSE™ Spill Kits, you're ready! The difference between a minor incident and a major environmental disaster can hinge on your choice of first-response™ materials and the speed of your response.

What will you do when a spill occurs? All Baytec First Response™ Spill Kits come pre-packed with ready-to-use sorbents. They give you more of everything you need to respond fast!

OilSorb™ Spill Kits work with oils, fuels, lubricants and other hydrocarbon fluids. 100% polypropylene sorbent soaks up to 16 times its weight in liquids. Incinerates completely. Refill Kits replace individual kit components including sockets, pads, pillows, disposal supplies, and instructions. The Oil only socks are a poly blend filled absorbent for petroleum-based fluids. By absorbing petroleum-based liquids and not water, these socks take in more oil and can be left at the job longer. They also float for cleanup of waterborne hydrocarbons. Oil only socks are ideal for surrounding spilled fluids or wrapping around leaky machines, containing spills from spreading into larger areas.

OilSorb™ Refill Kit contains 15 socks (3-inch x 48 inches), 23 pads (15-inch x 19 inches), 3 pillows (18-inch x 18 inches), 3 disposal bags with wire ties, 3 warning labels, 1 petroleum based label, and spill kit instructions.
