

H3+ DIGITAL HOLTER RECORDER

PRODUCT FEATURES

Small and Lightweight

The **H3+** Digital Holter recorder weighs just 4 oz.

3-Channel Recording

The **H3+** recorder provides 3-channel recording.

Convenient Waveform Display

It features a full graphic display to preview ECG waveforms during patient hookup.

Impressive 48-Hour Continuous Recording

With just one AAA battery, the **H3+** recorder supports continuous recording for up to 2 days.

Data Transfer

Recordings are downloaded via USB cable to the **HScrite** Holter analysis system or a Web Upload client computer. Holter hookup can be performed in virtually any convenient location.

VERITAS Interpretation Algorithm

The **H3+** recorder is compatible with the **HScrite** Holter analysis system featuring **VERITAS** signal processing and analysis capabilities.

Comprehensive Review

Recordings are imported and rapidly analyzed at the **HScrite** Holter analysis system. The **HScrite** system provides sophisticated review and powerful editing tools to facilitate accurate, quality reporting.

H3+ DIGITAL HOLTER RECORDER

Feature	Specification*
Instrument Type	Digital Holter recorder
Input Channels	Simultaneous acquisition of 3 channels
Standard Leads Acquired	Modified I, II, III, aVR, aVL, aVF and V
Input Impedance Input Dynamic Range Electrode Offset Tolerance Frequency Response	Meets or exceeds the requirements of IEC 60601-2-47
Digital Sampling Rate	180 s/sec/channel used for standard recording and storage
Special Functions	Pacemaker detection; ECG display during hookup
A/D Conversion	12 bits
Storage	Internal, non-volatile memory; up to 48 hours
Device Classification	Type CF defibrillator-proof applied parts, internally powered
Weight	1 ounce (28 grams) without battery
Dimensions	2.5 x 1.0 x .75" (64 x 25 x 19 mm)
Battery	1 AAA alkaline required
