# PATRIOT® BEAVER® 2006

*One coach at a time. Yours.™*

PATRIOT® 2006

## *Beau. Bello. Bonito. Beautiful.*

Any way you translate it, one thing's for sure – it's love at first sight of a new 2006 Beaver Patriot motorcoach. That's because around here, we speak the language of Old World craftsmanship. For the cabinetry, we hand select the very best hardwoods and one-of-a-kind optional exotic burl inlays. Giving the entire coach a remarkable consistency of color and

grain that's highlighted with a gorgeous gloss finish. Yes, from your first glimpse of the lustrous, full-body paint, to your first experience at the wheel of the state-of-the-art Roadmaster chassis, the Patriot or the optional Patriot Thunder Package will steal your heart away. We hope you'll enjoy your walk through the pages of the most beautiful motorcoach on the road.

*One coach at a time. Yours.<sup>TM</sup>*

Patriot 525 Thunder

40' Wilmington IV-Quad shown in Desert Sunset decor with Cherry cabinetry and Maple Burl inlays.

## THIS IS THE MARRIAGE OF ART AND SCIENCE.

Welcome to the 2006 Patriot and its impressive Thunder Package. Whichever model you choose, the stunning interior is designed to take luxury to a higher level, while the state-of-the-art technologies, Roadmaster S-Series chassis and Caterpillar® engine combine to deliver unbeatable performance. In short, this coach will take your breath away.

### LIVING AREA

Nothing compares to the comfort and luxury of a Beaver interior. The Patriot features plush furnishings, including the stylish OptimaLeather™ Euro-recliner with ottoman and the occasional table (below) with a sliding top allowing for more leg room. The optional wraparound computer table (right), makes a great workspace for your laptop. Other optional highlights include sculptured carpeting and a 37" LCD TV flush mounted in the ceiling.

42' Vicksburg IV Thunder shown in Tropicana decor with Cherry cabinetry.

### MULTIPLEX SYSTEM

An exciting new feature this year is the Multiplex wiring system. Lighted switch panels like the ones shown here are located throughout the coach, giving you multiple convenient access points for the controls to the slide-outs, the lighting — including the dimmers, and more. Each switch illuminates to indicate which function is on or off. Multiplexing also reduces the amount of wiring in the coach, lowering the overall weight and making servicing easier.

42 Vicksburg IV Thunder shown in Briarcliffe decor with Cherry cabinetry.

## WE'VE THOUGHT OF EVERYTHING.

At first glance, the Patriot will wow you with its beauty and craftsmanship. But we think you'll also appreciate its countless conveniences and thoughtful extras. The solid surface countertop, integrated sink and newly styled backsplash are all designed to be easily cared for, and you'll enjoy built-in storage for the countertop covers; a large pot and pan drawer, roomy pantry storage and lined cabinet shelves, to name just a few.

### ELEGANCE COMES IN MANY STYLES.

As you can see here, by simply customizing your woodwork with optional cabinet door accents, you have an interior that's remarkably distinctive.

4D Wilmington IV-Quad shown in Desert Sunset decor with Cherry cabinetry and Maple Burl inlays.

### OVERSIZED DRAWER

This large drawer in the base cabinet gives you extra storage space for pots and pans. The drawers also feature low-friction ball bearing roller guides and decorative hardware.

### UNIVERSAL REMOTE SYSTEM

This optional universal remote system (standard with Thunder Package) is a marvel of convenience and unifies the controls for all of your entertainment features.

### SECURITY SAFE

While you're away from your coach, your valuables may be securely locked in this discreetly located optional security safe (standard with Thunder Package).

40' Wilmington N-Quad shown in Desert Sunset decor, with Cherry cabinetry and Maple Burl interior.

## PAMPERED BY COMFORT. SERENADED WITH STYLE.

The Patriot's bedroom features a queen bed (or optional king) with beautifully coordinated bedspread and pillows. You'll find an abundance of storage space, with roomy overhead cabinets and an oversized wardrobe closet with mirrors. Above the bed, you have the convenience of adjustable lights with independent switches.

### PRIVATE BATH

The private bath has the residential styling of ceramic tile, a raised panel hardwood door and mini-blinds. The Vicksburg (above) features the convenience of double accent doors from either the bedroom or vanity area.

### SHOWER

This solid surface shower, standard with the Thunder Package, is stylish and easy to care for and features a Corian® shower caddy.

42 Vicksburg IV Thunder shown in Briardale decor with Cherry cabinetry.

### AIR MATTRESS

This high quality optional air mattress with dual remote control allows you to fine-tune the firmness of the bed, on both sides or individually, for your optimum comfort.

### AQUA-HOT®

The remarkable Aqua-Hot® system provides a continuous, unlimited on-demand supply of hot water and also serves as the zoned interior hot-water heating system, for cozy radiant heat. It even features an engine preheat function.

**A PERFECT MATCH FOR EVERY PERSONALITY.**

Whether your tastes run from the traditional to the adventurous, our expert designers have assembled a color scheme that's right for you. No matter which one you choose, you'll enjoy a distinctive decor with plush fabrics, carpet and upholstery, as well as a uniquely durable exterior finish, featuring the rich luster of our deluxe full-body paint.

## THIS IS WHERE WE DO THINGS THE OLD-FASHIONED WAY.

The 2006 Patriot is a marvel of innovation, with a long list of state-of-the-art features, including a 2,800 watt pure sine wave inverter, the Aladdin™ video coach system, automatic traction control and optional GPS — to name just a few. But here, in the Patriot's cabinet shop, it's all about Old-World craftsmanship.

The hardwoods for our cabinets and the exotic burls used in our one-of-a-kind inlays come from all over the world — from South America to Northern Africa to Central Europe. Not only do we travel the globe in search of the best wood sources, we hand select our wood to achieve greater consistency in grain, texture and color. A single coach may typically include an astounding 45 cabinets, 60 doors, three pocket doors, 40 drawer faces and literally hundreds of other pieces of wood.

Naturally, we wouldn't entrust these valuable resources to just anyone. In fact, our cabinet shop is comprised of highly skilled craftspeople with a combined total of more than 350 years of cabinetmaking and woodworking experience.

### FROM START TO FINISH.

The Patriot's woodwork features a gloss finish. Stain is never used — what you see is the natural grain and tones of the wood. A multi-layer finishing process achieves a magnificent luster. And as you can see here, nothing leaves the cabinet shop until it's been thoroughly inspected.

## IT'S ALL RIDING ON A ROADMASTER.

Ask any Beaver owner, and they'll tell you – it's the Roadmaster chassis that makes the difference. That's because the Roadmaster is custom-built to the exact specifications of each Beaver model and floorplan. You see, Roadmaster has a 100% commitment to only producing luxury motorhome chassis – and that's something no other manufacturer can say. We invite you to take a closer look at the highlights of the Patriot's incomparable S-Series Semi-Monocoque chassis. You'll find that it leads the way in safety, performance, convenience and reliability.

## Roadmaster Chassis

**1** 10,000 lb. hitch receiver offers powerful towing capacity with 7-way trailer plug. The coach also has a new prewire for a supplemental braking system.

**2** The three-point engine mounting system lowers the coach's center of gravity and reduces the amount of vibration that reaches the coach. The mounting also makes the engine easier to service by allowing the engine to be easily lowered through the bottom of the coach.

**3** Caterpillar® 400 HP ACERT C9 Engine (Thunder Package: 525 HP ACERT C13 Engine).

**4** Allison® 3000 MH 6-speed transmission (Thunder Package: 4000 MH 8-speed transmission) for smooth shifting; our exclusive use of synthetic transmission fluid allows for up to three-year maintenance intervals.

**5** Cushion Air-Gide Platinum suspension system positions ten Bilstein® shocks and ten air bags, eight of which are outboard mounted with auto-leveling for greater stability, a smoother ride and the best handling in its class.

\* Unique three-degree rear axle tilt perfectly aligns the engine, transmission and differential, minimizing stress on the drive-train and reducing noise and vibration in the coach.

**6** Automatic Traction Control (ATC) eliminates wheel slippage in slick conditions and heightens control.

\* Tag axle lifts for added maneuverability in tight spots.

**7** Basement structure rust inhibitor: To prevent corrosion, the basement storage area is constructed with pre-painted steel with rust-inhibiting paint.

**8** Full-length frame rails fabricated from 3" by 8" by 1/4" 60,000 PSI structural steel; rails are spaced 44" on center for a wider stance and unmatched strength.

#### OUTBOARD AIR BAG SUSPENSION

The outboard-mounted air bags are protected by two steel plates and are placed approximately 7-1/2 feet apart, providing a wider, more stable platform for the coach. The active suspension automatically adjusts the pressure of the air bags as you drive and virtually eliminates nose-diving and the side-to-side body sway associated with high wind conditions, curvy roads and emergency maneuvers.

- The semi-monocoque design, with trussed superstructure, distributes stress evenly throughout the entire chassis and adds strength to sidewalls and bays.
- PWC brake system assures you of safely traveling steep grades while 8-wheel anti-lock brakes with disc brakes in front help you maintain control in severe road conditions. (Thunder Package) CAT® Compression Two-Stage Engine Brake
- Dual ping air tanks with 3/4" air lines for quicker response and improved ride and handling.

#### POWERED BY CATERPILLAR® Caterpillar® 400 HP C9

Beaver is proud to offer Caterpillar® engines with ACERT™ technology. Road tested for millions of miles, Cat engines offer unbeatable reliability and durability. Plus, a Cat with ACERT technology gives you high performance with the lowest operating costs in the industry. In fact, its maintenance intervals are 30,000 miles, compared with 25,000 for other engines. The C9 (C13 on the optional Thunder Package) outperforms the competition in horsepower and torque. The Cat is also backed by an industry-leading 5 year/200,000 mile warranty with no deductible. And finally, ACERT technology gives you the cleanest-running engine available — and is fully compliant with EPA mandated standards.

#### ROOF CONSTRUCTION

(top to bottom)

- One-piece 1/4" thick fiberglass roof, crowned for water runoff and seamlessly joined with front and rear end caps; non-skid walkways on outboard areas for added safety
- Vapor barrier
- 3-1/2" tapered bead foam supports the crowned roof; the center tunnel houses wiring and air conditioner ducts
- 1/4" marine grade plywood sheathing
- Tubular steel framework
- R 7.5 closed cel foam seals every nook and crevice
- Luau and vinyl paneling are Vac-U-Bonded
- Sound-absorbing, easy-to-clean padded vinyl interior headliner

#### WALL CONSTRUCTION

(left to right)

- Gel coat fiberglass outer wall
- Luau paneling
- Heavy-gauge tubular steel and 4" steel plate bunks
- R 7.5 closed cel foam seals every nook and crevice
- Luau paneling; walls are Vac-U-Bonded together
- Decorative wall coverings

#### FLOOR CONSTRUCTION

(top to bottom)

- 5-Layer Flooring:
- Tile or 1/2" carpet pad and carpeting
- Dyna-Span flooring
- Decibel layer
- Dyna-Span flooring
- Waterproof fiberglass underbelly

With the GPS option, you're free to explore the middle of nowhere and always know exactly where you are.

Aladdin™ comes standard and makes it easy to keep track of many important functions, including tank levels, temperatures, mileage and much more.

This optional collision avoidance system utilizes a combination of sensors, software and radar to warn you of potential hazards on the road ahead and alongside your coach, which may be outside your view.

## REAR VISION SYSTEM

On the rear cap you'll find the camera for the rear vision system with color monitor — giving you eyes and ears for what's behind the coach at all times. Other highlights include the seamless one-piece crowned fiberglass roof for unmatched strength and a rear ladder — with hooks in the bay for storage.

## ELECTRICAL BAY

This electrical panel is conveniently located with all wiring centralized for easier access and servicing. Our aircraft-grade harnesses are weather-resistant and impervious to the rigors of constant motion. Each wire is stamped every three inches with the name of its function, making it even easier to track and maintain.

## SUPER SERVICE CENTER

Our exclusive new service bay features a gleaming stainless steel surface, with well-organized hook-up functions to make life easier and help you keep the area tidy.

## HERE ARE SOME THINGS YOU CAN COUNT ON.

Talk to Beaver owners, and they'll tell you the day you drive away in your new coach is the beginning of a lasting relationship. That's because personalized owner care is something we stake our reputation on, year after year. Wherever your travels

lead, you can count on us to be only a phone call away. Our staff is available 24/7/365 to help you with virtually any situation that may arise — with troubleshooting, operational instruction or facilitating repairs at the nearest of our 350 nationwide service centers. In addition, you'll be enrolled in our Owner Advantage Roadside Assistance Program free of charge for your first year of ownership — providing additional emergency assistance, including towing, tire repairs and many more services around the clock. In short, when you purchase an RV from Monaco Coach Corporation, you get a wider array of benefits than any other manufacturer can offer. From our industry-leading Roadmaster chassis to the remarkable White Glove factory inspection program. Want to see it all for yourself? Simply call 1-800-634-0855 or 1-800-650-7337 to arrange a tour of one of our state-of-the-art production facilities in Oregon or Indiana.

**Roadmaster**  
Chassis

## WARRANTIES

### 12 month/24,000 mile

basic limited warranty

### 5 Year/50,000 mile

limited warranty on aluminum or steel frame structure of sidewall, roof, front and rear cap

### 3 Year/36,000 mile

limited warranty on Roadmaster chassis

Applies to certain models. See owner's manual for complete details.

## OWNER ADVANTAGE ROADSIDE ASSISTANCE PROGRAM

At no charge to you in your first year of ownership, we offer an extensive support program that provides complete roadside assistance and special motor club benefits that follow you wherever your travels take you. This coverage also includes one additional family vehicle at no extra charge! Highlights include towing, tire repairs, fuel delivery, lock-out service, service appointment assistance, trip interruption coverage and much more.

Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. You towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your Owner's Manual for further towing information.

\*Length measurements include roof satellite.

<sup>1</sup>Actual listed LP capacity is 80% of listing due to safety shut-off required on tank.

All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the advertised capacities based upon fabrication and installation of the tanks.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated.

Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit may differ. Beaver Motor Coach provides a weight sticker on each unit we produce, which includes that unit's tank capacities and approximate weight. Consult your local Beaver Motor Coach dealer for unit availability and further information. The information printed in this brochure reflects product design, floorplans, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design, material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name, which will result in comparable performance.

Component part and appliance manufacturers issue limited warranties covering those portions of the recreational vehicle not covered by the Limited Warranty issued by Monaco Coach Corporation. To learn which specific component parts and appliances are excluded from the Limited Warranty issued by Monaco Coach Corporation, please contact your selling dealership or Monaco Coach Corporation directly or review the warranty packet inside the recreational vehicle. All information printed in this brochure is subject to change after the date of printing. Some features shown in this brochure are optional and may only be available in selected floorplans. Photographs may show prior or alternative configurations that are not standard equipment on Beaver Motor Coach models. Beaver Motor Coach, the Beaver logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders.

## BEAVER® 2006 PATRIOT®

THE BEAVER LINE OF MOTOR COACHES:  
MONTEREY • PATRIOT® • MARQUIS®

WHEN A COMPANY TREATS YOU THIS WELL,  
YOU CAN'T HELP BEING LOYAL.

Meet long-time RV owners, Jack and Sheron Brown. They spent three years researching diesel motorhomes before the day they stepped into a 2003 Patriot with the Thunder Package and were sold on the spot. They were both wowed by the stunning interior that made other motorhomes look "plain vanilla." Jack fell in love with the big Caterpillar® engine that he says "has yet to meet a mountain it couldn't climb," while Sheron appreciates the livable layout and plentiful storage space.

Together, they insist that the highlight of owning a Patriot is the personal treatment they receive from Beaver's customer service and tech support teams. "They're totally committed to resolving issues and making things right," says Jack. "And that's the way I believe in doing business."

In fact, the Browns are taking possession of a brand new 2005 Patriot Thunder with quad slide-outs and a 525 HP engine. They know they'll continue to turn heads wherever they go, and that's fine with them. Because, like they both said, "We're Beaver owners for life."

*One coach at a time. Yours.®*
