HOW TO SET THE CORRECT TIME / DATE

Your new e-pill CADEX V8 watch may be in power saving mode (no display). Press A+B+C+D at the same time to start the watch if you do not have a display.

If your watch does not show the correct time please follow these instructions:
- <u>Press & hold button D (SET) for 3 seconds to enter setting mode</u>. The hours will start flashing
- Tap A (+) until the correct <u>Hour</u> is reached. Please note the AM/PM indicator in the top left hand corner. To go backwards tap B (-)
- Tap D
- Tap A until the correct <u>Minute</u> is reached
- Tap D
- Tap A until the correct <u>Year</u> is reached
- Tap D
- Tap A until the correct <u>Month</u> is reached (1=January, 2=February … 12= December)
- Tap D
- Tap A until the correct <u>Day of the Month</u> is reached
- Tab D to leave setting mode

Congratulations - you have now set your new e-pill CADEX V8 Vibrating 8 Alarm Watch to the correct time and date.

TEST MODE
While in normal time display, press & hold button B (LIGHT) for 5 seconds and the vibrator and beeper will turn on for 2 seconds.

BACK LIGHT
Tap button B (LIGHT) for Back Light (3 seconds illumination).

AM/PM (12 HOUR) or 24 HOUR MODE
Press and hold A button to toggle between AM/PM (12 Hour) or 24 Hour (Military Time) mode.

HOW TO SET DAILY ALARMS
While in normal time mode, Tap button C (ALARM) to go to the alarm you want to set.
Alarm-1 is AL-1, Alarm-2 is AL-2, Alarm-3 is AL-3 …. and Alarm-8 is AL-8.

<u>For each DAILY ALARM do the following:</u>
- <u>Press & hold button D (SET) for 3 seconds to enter setting mode</u>. The hours will start flashing.
- Tap A until the correct <u>Hour</u> is reached. Please note the AM/PM indicator above in the top left hand corner. To go backwards tab B (-).
- Tap D
- Tap A until the correct <u>Minute</u> is reached.
- Tap D to leave setting mode
- Tap A to select alarm mode for each alarm. Possible settings are Sound Alarm On, Vibrating Alarm On, BOTH (Sound and Vibration) Alarm On and Alarm OFF (no symbol shown)

<u>Proceed to your next alarm - Tap C (ALARM).</u>

Each alarm lasts for 3 x 20 seconds. 20 seconds of alarm (Vibration, Sound or Vibration AND Sound) are followed by 40 seconds of silence. This series repeats three (3) times for a total of 60 seconds. Tap any button to stop the alarm.

<u>NO Alarm Reset Required</u>.

The e-pill CADEX V8 will repeat each alarm set on a daily basis – no reset required.
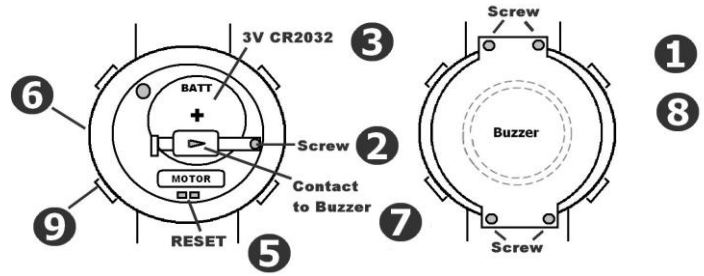

All the alarms will reset at midnight and automatically repeat every day at the same time.

POWER SAVING FUNCTION

You may want to temporarily shutdown your e-pill CADEX V8 in order to save the battery (power saving mode). Press all four buttons A+B+C+D at the same time while in normal time display. While in power saving mode, the time clock will stop and the display will turn off. Press A+B+C+D to re-start your e-pill CADEX V8 Alarm Watch.

BATTERY REPLACEMENT

- Unscrew the watch bottom cover and open it (1).
- Unscrew the battery holder (2). Remove bracket by sliding it to the right.
- Replace the battery with a new 3 Volt Lithium Button Cell (CR2032). The + side facing you (3).
- Replace the battery bracket. Screw back the battery holder.
- Use a metal tool to short circuit the two RESET contacts -see illustration (5).
- Check the watch display (6) to make sure it is working. If not repeat the reset step.
- Screw back the bottom cover. Make sure it is aligned with the words on the bottom cover facing up.
- Perform the TEST MODE function by holding in B button (9) until the vibrator and beeper are turned on.
- Battery life is estimated to be 4 to 6 months but depends in the number of alarms and how long each alarm is sounding.

Battery:
Replaceable CR2032 3V Button Cell

We suggest you take the watch to a jeweler to have the battery replaced.
