

GOLF BAY PRO SERIES

Elite ProAV's *Golf Bay Pro* is the ultimate golf simulator enclosure for commercial and professional installations. The enclosure comes with everything you need to build it right out of the box, eliminating the hassle of purchasing additional parts. The Golf Bay Pro includes an impact screen, ball bungees, metal frame tubes, corner fittings, and enclosure cover panels.

Screen Material

- ImpactWhite® 1145 golf impact front projection screen material
- Wide viewing angle allows the viewer to see a clear bright picture from any angle
- Withstands ball speeds up to 200 mph and resists indentations from golf ball impact
- 4.5 mm warp knitted fabric is comprised of three-layers for maximum performance in absorption and endurance
- High-density warp knitted fabric absorbs impact reducing ball bounce-back while suppressing and dampening the noise
- ISF Certified for accurate color reproduction
- Available in 10' x 10' and 13' x 10' sizes

Design & Installation

- Heavy-duty metal tube frame construction including all corner fitting for a professional-grade finish
- Includes top/left/right black enclosure cover panels
- Black backing included eliminates projector light loss and back light reflection
- Impact screen has metal ring grommets and fastens to the frame using ball bungees to provide a flat and taut surface
- Easy assembly and installation without the hassle of acquiring your own EMT framing.
- 5-year manufacturer's warranty
