

PRESENTER PRO DARKUST® 2

The Presenter Pro DarkUST® 2 is a portable folding-frame projection screen for indoor presentations under bright room lighting environments. It uses Elite ProAV's DarkUST® 2 innovative Ceiling Ambient Light Rejecting material which is specially crafted for bottom mounted ultra- short throw projectors. The folding-frame assembles in a matter of minutes and has back-braced legs for stability and support. The legs are height adjustable to accommodate various environment settings and applications.

Screen Material

- DarkUST® 2 Ceiling Ambient Light Rejecting material absorbs up to 85% of overhead lighting
- Wide viewing angle allows viewers to see a clear and bright uniform picture from any angle
- Micro-serriform lenticular structure filters out ambient light that produced contrast rich images
- Compatible only with bottom placed ultra-short throw projectors
- Project within a short distance without shadowing the picture
- Black-backing eliminates light penetration and picture degradation

Design & Operation

- 60" Diagonal in 16:9 aspect ratio
- Collapsible folding-frame design assembles effortlessly
- Material stretches on frame using corner pull-tabs with snap buttons and Velcro to provide a flat and taut projection surface
- Height adjustable legs accommodate various applications and environment
- Back brace support on legs for improved stability
- Padded carrying bag fits product for protection and portability
- Includes a drape to cover bottom for an elegant professional finish
- 5-year limited manufacturer's warranty
