PRESENTER PRO RISER CINEGREY 4D

The Presenter Pro Riser CineGrey 4D is a portable electric floor-rising projection screen with Ceiling Light Rejecting technology designed for ambient light room environments. Its tab-tension design maintains a flat and taut front projection surface to provide a ripple-free image suitable for standard long throw projectors. The ambient light rejecting characteristics allow the Presenter Pro to be used in rooms with ambient light in lecture halls, conference/boardrooms, training facilities and other environments where light cannot be controlled.

Screen Material

- CineGrey 4D 1.1 Gain Ceiling Ambient Light Rejecting front projection material
- Multi-layer matrix uses reflective and absorbent micro-particles to eliminate 63% of ambient light
- Angular reflectivity negates light scatter while reflecting off-axis ambient light
- Standard 4-side black masking borders absorb projector overshoot while enhancing visual contrast
- Compatible with standard (long) throw projectors ONLY
- Available in diagonal sizes 133" and 150" in 16:9 HDTV aspect ratio

Design & Control System

- Rises and lowers by our motorized precision "scissor-backed" cross spring risers
- Heavy-duty aluminum black housing is moisture resistant
- Carrying handles on each side for better mobility to facilitate portable presentations
- Free-standing projector screen appears and disappears from a touch of a button
- Built-in Infrared and Radio Frequency receivers
- Includes Radio Frequency (RF) and Infrared remote controls
- 12v trigger included: Synchronizes the screen's UP/DOWN operation with the projector's power cycle
- 5-year Premium Warranty by Elite ProAV
