

PRESENTER PRO RISER DARKUST® 3 SERIES

The **Presenter Pro Riser DarkUST® 3**, floor-rising tab-tensioned ultra short throw projector screen is the ideal solution for bright room environments. The DarkUST® 3 Ceiling Light Rejecting® front projection surface absorbs up to 85% of overhead light to combat the washout effect that conventional matte white materials typically experience. It has a free-standing design and includes Infrared, Radio Frequency and a wall box controller to operate the rise and drop of the screen.

Screen Material

- DarkUST® 3 Ceiling Ambient Light Rejecting material absorbs up to 85% of overhead light
- Designed for use with tabletop/bottom mounted Ultra-Short Throw (UST) projectors
- Dedicated reflective and absorbent layers maximize projector performance in ambient light room environments
- Enhances black levels and color saturation in bright/dark rooms
- Wide diffusion uniformity allows viewers to see a clear bright picture from any angle
- Black backing prevents picture degradation while enhancing image brightness for sharper presentations
- Available in diagonal sizes 126", 138", 150" in 16:9 aspect ratio

Design & Operation

- Sturdy black aluminum housing is moisture resistant
- Free-standing projector screen rises and lowers using "scissor-backed" industry grade cross spring risers
- Plug & Play design with built-in low voltage control system
- Includes handheld Infrared (IR) and Radio Frequency (RF) remote controls, and a detachable wall box controller
- User-friendly programmable vertical rise position
- Wall box controller is detachable for a clean look
- Built-in selectable channels allow one RF remote programming
- 12v trigger feature allows the screen's UP/DOWN operation to synchronize with the projector's power cycle
- 5-year manufacturer's warranty
