PRO FRAME THIN DARKUST® 3

The *Pro Frame Thin DarkUST® 3* is an EDGE FREE® ultra-short throw fixed frame screen. It uses our innovative Ceiling Light Rejecting DarkUST® 3 material which absorbs up to 85% of overhead light. The DarkUST® 3 material has a serriform optical surface structure made specifically to negate the washout effect caused by overhead and other off-axis light sources. This technology allows the material to retain image brightness, color saturation and contrast for superior picture performance.

Screen Material

- DarkUST® 3 Ceiling Light Rejecting material absorbs up to 85% of overhead light, preserving black levels and colors
- 80x contrast improvement over conventional matte white in ambient light room environments
- Micro-serriform optical structure filters out ambient light and directs projected light toward viewers
- Wide viewing angle allows viewers to enjoy consistent brightness and color accuracy from nearly any seat in the room
- Designed to pair with bottom mounted ultra-short-throw projectors (not compatible with short or standard throw projectors)
- 4K/8K Ultra HD, and HDR Ready

Design & Installation

- Black backing prevents picture degradation while enhancing image brightness for sharper presentations
- Project from a short distance without casting shadows
- Sleek modern low-profile fixed frame design blends seamlessly into any décor
- EDGE FREE design maximizes viewing area in a smaller footprint
- Includes wall mounting brackets that permit horizontal movement for a perfectly centered installation
- Lightweight aluminum split-frame design facilitates easy access to installation sites
- 5-year manufacturer's warranty
