

SAKER TAB-TENSION SERIES

The *Saker Tab-Tension Series* is an electric projection screen draped with our MaxWhite® Fiberglass front projection material that provides excellent color uniformity with a wide viewing angle. It's tab-tension assists in keeping the material from curling on the sides. It includes a pair of wall brackets for a flush wall installation. Also included is a pair of eye-bolt screws that attach to the top of the case for a suspended ceiling installation. Standard features include Infrared and Radio Frequency remotes, a wireless 12-volt trigger and a detachable wall box controller.

Screen Material

- MaxWhite® Fiberglass (FG) 1.1 Gain matte white front projection material
- 180° wide viewing angle with diffusion uniformity allows viewers to see a clear picture from any angle
- Not compatible with Ultra/Short-throw Projectors
- Standard black masking borders enhance perceived contrast and absorb projector overshoot
- Black backing eliminates light penetration for superior color reproduction
- Tab-tension design helps maintain a flat projection surface
- Silent operation synchronous motor and low power consumption
- GREENGUARD® and GREENGUARD® Gold Certified | UL 2818
- Available in 100" diagonal size in 4:3 format

Design & Installation

- Flush hidden wall mounts allow screen to slide horizontally for proper centering
- Curved aluminum enamel white case with parallel grooves
- Mounting hardware kit included for wall or ceiling installation
- Includes handheld Infrared (IR) and Radio Frequency (RF) remote controls, and a wall box controller for manual on-wall operation.
- User-friendly programmable vertical drop position
- Wall box controller is detachable for a clean
- Built-in selectable channels allow one RF remote programming to control multiple screens and prevent interference
- 12v trigger feature allows the screen's UP/DOWN operation to synchronize with the projector's power cycle
- 5-year premium manufacturer's warranty
