

Evanesce AcousticPro UHD

Electric In-Ceiling Acoustic Transparent Projection Screen

Product Description

The **Evanesce AcousticPro UHD Series** is a fully contained in-ceiling electric projection screen. It is encased in a white-enameled aluminum housing for convenient installation. It includes our acoustically transparent front projection material to allow speaker placement behind the screen. Control package includes an Infrared and Radio Frequency remote controls, a detachable low-voltage keypad switch and 5-12Volt trigger.

Product Design & Features

- Sound transparent projection material allows speaker placement behind the material
- Perforated weave material design including black masking borders
- Disappearing recessed in-ceiling design allows for below and above ceiling access installation
- Moisture resistant aluminum housing with white finish
- ISF Certified for accurate color reproduction
