Wall-Mounted Projection Screen

SUGGESTED SPECIFICATIONS: _____ projection screen(s), _____(H) x _____(W), To have flexible screen surface, fire retardant and mildew resistant. Wraparound fixed frame projection screen; with standard steel mounting brackets for wall mounting, or ceiling suspension. The screen surface wraps completely around to the back of the frame, so there is no border around the projected area. The screen has an overall assembled depth of 13/16" (30 mm). The screen is shipped

disassembled and can be assembled by joining the aluminum extruded frame pieces using steel corner brackets, which are secured by setscrews using a supplied Allen wrench. The screen surface is then attached by joining loop Velcro on the fabric to the hook Velcro on the frame.
