Home Cinema LS7500 4K Laser Projector

3-Chip 3LCD Short Throw Lens with HDR

4K[1]

Theater. Reimagined.

4K Display Technology[1] — Produces a full 8.29-million-pixel on-screen image for exceptional picture clarity without sacrificing brightness

Stunning Picture Brightness — Unique 3-chip 3LCD projection engine powered by a laser array light source produces 3,500 Lumens of Color Brightness (IDMS Rated) and 3,500 Lumens of White Brightness (ISO Rated)[2]

Advanced HDR Capability — Full 10-bit color processing for HDR, HDR10[3] and HLG content, including the option for Epson Automatic HDR Scene Correction for optimized picture quality

High Black Contrast — An exceptional 1,000,000:1 dynamic contrast ratio produces an overall sharper picture, while revealing deeper shadow detail and sharper distinction between light and dark scenes

Short Throw Epson Cinema Lens — Unique precision lens can place the projector about three feet closer to the wall versus standard throw projectors, while still supporting multiple screen aspect ratios from 16:9 to widescreen 21:9 up to 300"

Modern Connectivity — Dual HDMI® ports support refresh rates up to 120Hz, with one HDMI port featuring eARC for high-quality audio passthrough

Built for Gaming — Featuring a 120Hz refresh rate and Auto Low Latency Mode (ALLM) with input lag below 20ms, this gaming projector delivers smooth, responsive gameplay—perfect for the latest generation of consoles and gaming PCs

Flexible Installation — Compact, whisper-quiet front-exiting airflow design and a manual lens shift (±21% horizontal and ±59% vertical) for greater placement flexibility and easier integration into a wide range of environments

Wireless Audio — Integrated Bluetooth® 6.0 supports optional two-channel audio streaming directly from HDMI input sources, making it ideal for connecting personal headphones

Peace of Mind — Backed by Epson's 2-year limited warranty, including full-unit replacement and free technical support

1 4K Resolution Enhancement Technology shifts each pixel to produce an image on screen, up to the stated specification. | **2** Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118. | **3** HDR performance available with select third-party devices. For more information, see epson.com/hdrcompatibility | **4** No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 – 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period.| **5** For convenient and reasonable recycling options, visit epson.com/recycle | **6** SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
