

QuickStand 5-Second Tension CineGrey 5D®

Large Portable Free-Standing ALR Projection Screen

Product Description

The **QuickStand 5-Second Tension CineGrey 5D®** is a mobile free-standing large size tab-tensioned projection screen. It uses our ceiling ambient light rejecting CineGrey 5D® material to combat the washout affect typically experienced with conventional matte white materials in bright lit environments. The screen includes a built-in stage case for travel. It pops out of the case and is extended using a dual-scissor support system.

Product Design & Features

- Angular Reflective Material
- Enhances black level dynamic range and color saturation
- Angular reflectivity negates light scatter artifacts and is ideal for residential or commercial applications
- Built-in ATA stage case design for professional road crews or casual presentations
- Fast-operating portable presentation; quickly sets up in seconds
- Tab-tension designs maintains uniform screen flatness
- Screen is entirely enclosed in a heavy-duty durable case
- ATA Stage case includes wheels for quick mobility
- Drape Kit included to provide a more elegant professional presentation
