

Sable Frame CineGrey 3D®

ALR Fixed Frame Projection Screen

Product Description

The **Sable Frame CineGrey 3D®** is a fixed frame screen with a velveteen coated frame. Uses an angular reflective front projection material designed to reject ambient light while maintaining superb picture quality. The CineGrey 3D® is the perfect solution for rooms that have little or no control over incidental light. This means that it's an ideal fit for family rooms as well as lecture halls, boardrooms, sports bars, training facilities, and other business environments.

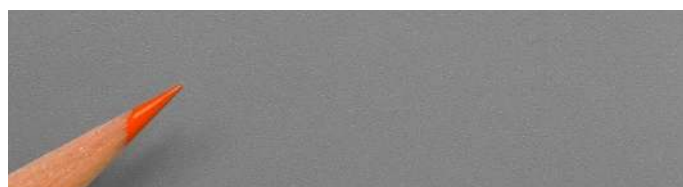

Product Design & Features

- CineGrey 3D material enhances contrast and superb color balance
- ALR material surface counters the wash-out effect of ambient light
- Black velvet covered 2.36" aluminum frame enhances overall appearance and absorbs projector light overshoot
- Easy assembly and installs in minutes
- Included wall brackets for a properly centered installation
