

# Yard Master Plus Series

## Indoor/Outdoor Folding-Frame Projection Screen

### Product Description

The **Yard Master Plus** is an enhanced version of Elite Screens portable indoor/outdoor folding-frame screen that comes with variable height settings to accommodate larger venues. Its durable lightweight aluminum frame ensures a quick setup in just minutes. The screen incorporates a free standing design with graduating height settings to give the presenter a versatile approach to accommodating whatever event is in the works. The design features the ISF certified CineWhite® UHD-B 1.3 gain front projection material.

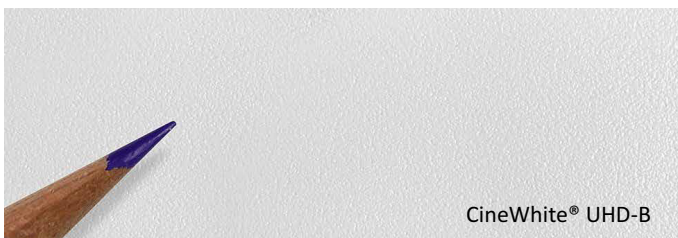

### Product Design & Features

- Wide viewing angle allows for a clear and bright picture from any seating position
- Black masking borders enhance picture contrast
- Optional Rear Projection Material available (**sold separately**)
- Black material backing eliminates light penetration
- Sturdy, lightweight collapsible frame design
- Height adjustable AT-legs included with added support (**Not Compatible with ZOMS2-LEGS**)
- Snap buttons on material allow for a tightly flat installation
- Carrying bag included fits entire product
