

ezCinema Tab-Tension CLR® 5

Portable Floor Pull-Up CLR® Projection Screen

Product Description

The **ezCinema Tab-Tension CLR® 5** is a free-standing portable ultra-short throw projector screen. It effortlessly pulls up from its housing to reveal the StarBright CLR® 5 front projection surface with Ceiling Light Rejecting® technology to combat the washout effect from overhead light sources in bright room environments. It is the ideal companion when a portable presentation is needed in a small space.

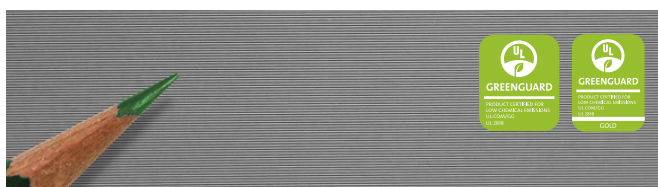

Product Design & Features

- Ceiling Light Rejecting material absorbs 80% of overhead light
- Reflective and absorbent layers optimize projector performance in moderate ambient light room environments
- Easy to transport and set up on-the-go mobile presentations
- Adjustable telescopic support bar ensures easy positioning
- Rotating floor support feet provide added stability and a leveled installation
- Built-in tensioning mechanism keeps projection surface flat
- Integrated carrying handle for enhanced mobility
- Black aluminum case protects the screen and is self-contained
- Carry bag included for protection, storage, and easy transportation
