PARTS LIST

INSTRUCTIONS: OFF THE DOG

INTERCHANGEABLE
VERS-A-VEST
OUTER PANELS AVAILABLE
(SOLD SEPARATELY)

1. Zip Base Panel Left (A) and Base Panel Right (B) Together. *See Fig. 1 and Fig. 2*
(Leash Ring on (A) / Leash Ring Hole on (B) indicate front)
2. Attach Chest Panel (C) to the Base Panel assembly, leaving sufficient space for your dog's torso and neck. Start with the wider belly straps (C1), then attach the narrower shoulder straps (C2) *See Fig. 3*. The sizing will be adjusted later.

OVER >

WITH THE DOG

3. Unzip the Versa-Vest and pass your dog's front legs through the leg holes and pull up onto the shoulders. Fig.4
4. Zip the Versa-Vest base panels together around the dog. Fig.5
5. With dog sitting, adjust the shoulder straps to ensure a tight fit that is even on both sides. Fig.6
6. With dog standing, adjust the belly straps to ensure a tight fit that is even on both sides. Versa-Vest should fit properly at this point. Overall fit should be comfortably tight around neck, chest and waist, with no large gaps. Make micro-adjustments if necessary. Fig.7
7. Unzip the vest and remove from dog.
8. Off the dog, secure Outer Panel Left (D) to Base Panel Left (A). If you choose to stow the handle and leash ring, leave them underneath the outer panel. Fig.8. If you choose to use them, pull the Leash Ring through the gap and tuck the top of the Outer Panel underneath the handle. Fig.9
9. Secure the Outer Panel Right (E) in the same manner. Versa-Vest is fitted and fully assembled Fig.10
10. Put the fully assembled Versa-Vest on dog and zip it securely. Secure top flaps down. Fig.11
