HOME FRAGRANCES

**THE SCENT OF YOUR HOME.  
A GIFT FOR THE SENSES.**

Jasmine, orange blossom, vanilla, wood... Your home is your temple, your private space and your refuge, and there is a scent that is just right for it, a scent that evokes a comforting sensation of inner peace. Lladró expands its creative universe to the world of **perfumes for the home** with its *Home Fragrances* collection which combines **natural essences** with the artistic touch of **handcrafted porcelain**.

*Gardens of Valencia, Mediterranean Beach, I Love you Mom...* behind each Lladró fragrance there is **a story that transports you** to a moment of happiness. All the brand's works extend an invitation to **relive and enjoy those moments**. This magical ability is also captured in the *Home Fragrances* thanks to **the evocative power of the essences** and **the symbolism of the figurines** and reliefs in porcelain.

Decorate your home with fragrances and ensure a unique aromatic experience.

## HOME FRAGRANCES

The three angels in the **Heavenly Dreams collection** - **Missing you, Thinking of you and Dreaming of you** - speak to us of universal sentiments in the language of porcelain. The *Home Fragrances* series is completed with the **Nose and Volutes** candles whose porcelain vases contain delicate etchings, each in its own individual style. These **functional and decorative pieces** invite us to combine them in different ways and, once the essence has been consumed, to continue using them as original objects for the home.
