List of Hardware:

Part	Part
 Drawer Pull Screw 2 per drawer pull	 Drawer Pull 1 per drawer
 1 set of keys	 4 Leveling Glides

- 1.) Install 4 leveling glides. Keep the front two leveling glides 1/4" taller than the back back two, which means your file will be slightly tilted back. This is the proper way to level a lateral file cabinet. It keeps any unlocked file drawers from creeping open and distributes the weight more evenly.
- 2.) Use the screws to attach drawer pulls.
