

Training Table with Post Leg Assembly Instructions

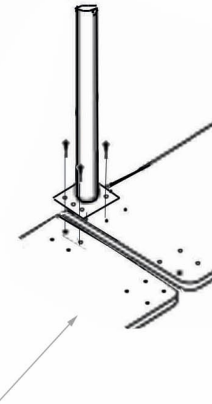

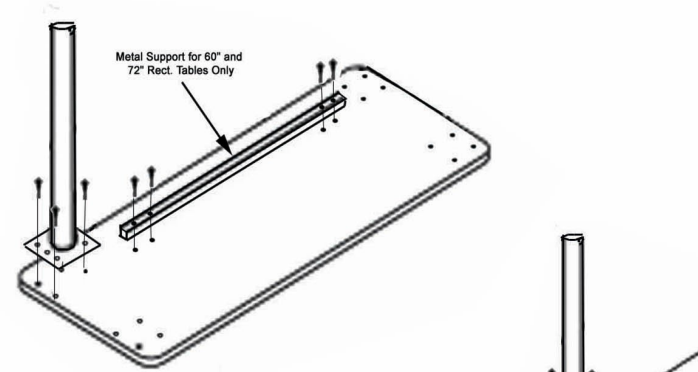

PARTS LIST

Machine Screw

x4, per leg

Stabilizer Bars
on 60" and 72" tables
for no-sag support

Attaching as a 'shared leg'

Shared Leg used on Y10158 & Y10161
table configurations

Step 1) If you ordered tables with mobile legs, insert casters into the post legs as your first step.

Step 2.) Assembling table upside down, locate the predrilled inserts and use the machine screws to attach each post leg, 4 screws per leg. In some cases, you may need to center the leg over the seam of two tables and attach in same method.

Step 3.) If you purchased 60"W or 72"W tables, your last step is to attach the Stabilizer Bar. Locate the predrilled inserts and attach using the machine screws provided.
