Office Panel Installation Instructions

Questions? Call Customer Service at 1-800-443-5117, 8:30-5 Central Time, Mon-Fri

Tools Needed: Phillips Screwdriver, Rubber Mallet, WD-40 and Clean Hands! Hardware Included: Each Panel includes Mounting Brackets. End Strips provided for end of panel runs.

Important Assembly Tips:

- * If needed, use of a lubricant such as WD-40 in the side track may ease the process of removing and replacing mounting brackets, as well as sliding in end strips if an overly tight fit. Be careful not to overspray lubricant onto the panel.
- * Mounting brackets should only be very loosely attached. The pointed Phillips set screw attached to the brackets is merely for bracket positioning. Leaving the brackets as loose as possible will allow the connections to fit together properly.
- * When installing an arrangement of panels, installation will be easier if the brackets of the first panel have the opening facing upward (see diagram below). This way, the next panel bracket drops into the receiving bracket, rather than having to lift the first panel off the floor for the connection.

Assembly Video

Step 1) Screw in two leveling glides into the base of each panel.

Step 1

Step 2) Insert Clips into tracks. On first panel, arrange the Clips into the "UP" position in the track. (see drawing on right.) On next connecting panel, arrange the Clips in the "DOWN" position. Repeat on each panel as needed.

48"H Panels & Posts: 3 Clips in each track
67"H Panels & Posts: 3 Clips in each track
84"H Panels & Posts: 5 Clips in each track

Step 2

Step 3) Slide your second panel into your first panel by slightly tipping the second panel and dropping the brackets down into the first panel. Brackets will fit together. Repeat Steps 1 & 2 as needed.

Step 3

Step 4) Connector Posts will need 3 mounting brackets per side/connection and attach in same method as panels.

See video above!!!!

Step 5) Use the plastic end strips at the end of each panel run for a finished appearance. Do not add any mounting brackets in the rails when using the end strips.

Step 6) Cable troughs can be opened by inserting a straight blade screwdriver into the side or top edge to pop the door open.

Desk/Credenza Assembly Instructions
L-Desk Assembly Instructions
 (PLT2472, PLT3066, PLT3672 & PLT2448
 PLTLEGD2472, PLTLEGD30, PLTLEGD36 & PLTLEGD24)

List of Hardware:

Part	Part
 Leveling Glide	 3/4" Bolt
 2-1/2" Bolt	 Bracket (for return desks only)
 Grommet	

Tools Needed:

- Allen Wrench included (to connect bolts)
- Power Screwdriver
- A Helper

Desk or Credenza:

- 1.) Assemble on carpet or cardboard to protect parts during assembly. Assembly will require 2 people for safety.
- 2.) Screw in leveling glides on all frames.
- 3.) Next, assemble metal desk frame by attaching the cross beam to the left & right side legs. The bolts for the cross beam are already in the legs. Just back out, place beam and screw back in. Use 16 of the 3/4" bolts total for this step, 8 for each side.
- 4.) Use a total of 4 of the 2" Bolts to attach the metal frame to the worksurface. Once connected, insert the grommets.

Return Desk:

5.) If you purchased an L-desk, attach the return desk end leg to the desktop with 2 more 2" Bolts, that are taped to the leg.

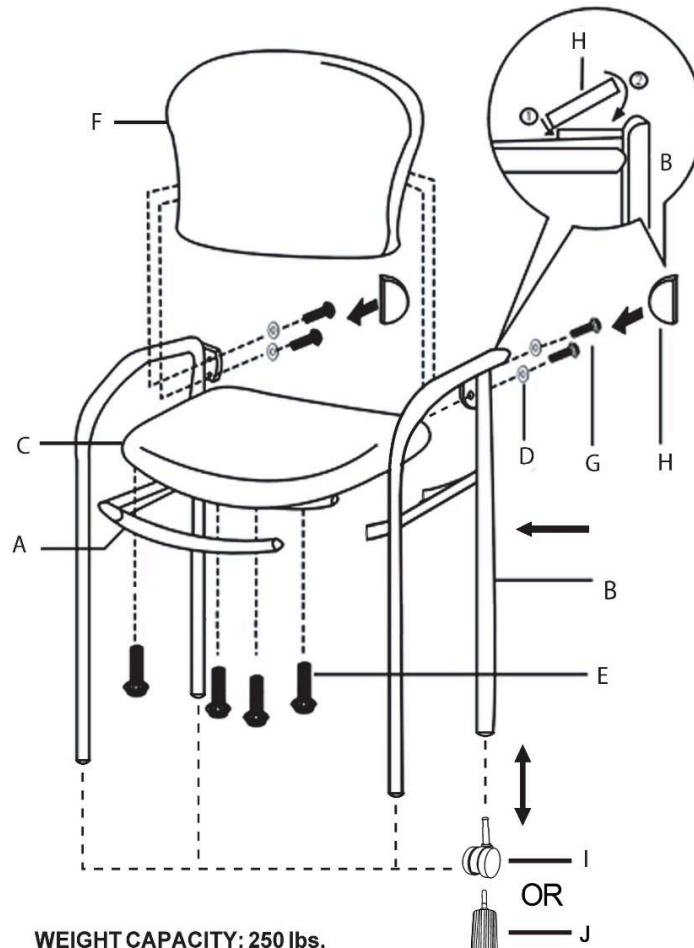

6.) The mounting bracket will already be installed on the return desktop. Use a total of 6 of the 3/4" Bolts to attach the bracket to the underside of the two worksurfaces.

MODELS : 415VAF/415VAV GUEST / RECEPTION CHAIR WITH OPTIONAL CASTERS OR GLIDES

Parts Listing

WEIGHT CAPACITY: 250 lbs.

Assembly Notes:

During assembly, hand tighten screws only. When all screws are in place, you may then tighten all screws completely.

CAUTION:

1. Do not use this chair as a step ladder.
2. Check for loose screws and tighten them every 6 months.

Assembly Instructions

Tools needed: Phillips Head Screwdriver
Please read all instructions before assembly.

Step 1: Attach Seat Braces (A) to Left and Right Sides (B), making sure that the pre-drilled holes in braces align with the holes in arms.

Step 2: Attach the Chair Seat (C) to the frame and insert four Screws (E) through the Seat Brace (A) and into the Chair Seat.

NOTE: Hand tighten screws only.

Step 3: Attach Back Rest (F) to the frame by placing four Washers (D) onto four Screws (G), and inserting them into the frame and into the Back Rest.

NOTE: Hand tighten screws only.

Step 4: Proceed to tighten all screws on Chair Seat and Back Rest with screwdriver.

Step 5: Place Back Hardware Cover (H) over the Back Rest Screws (G). Slide cover over frame and snap into place.

For installation of Model 415 ONLY!

Optional casters & glides Installation:

Step 6a: Lay chair down on level, non-abrasive surface and insert optional casters (I) or glides (J), into the fittings in the legs, making sure casters or glides are securely inserted into the legs.

17. Screw bolt M6x1.77inch(6PCS)
18. Screw bolt M6x0.78inch(2PCS)

SPECIFICATIONS

Chair weight: 31.3 lbs
 Load capacity: 275 lbs
 Size: 22.8x24.4x50.5 inches
 Product material: PA, PU, glass fiber, Aluminium alloy

PACKAGE INCLUDES

1x office chair (divided parts)
 2x wrench
 15x screw sets

INSTALLATION

1. Install the armrest on seat. Make sure to install at the right direction. For the seat cushion, the broad edge is the front, and the narrow edge is the back. The armrest with an "L" on the bottom is for the left side and "R" for the right side of the seat. The screw bolt should be the M6x1.77inch(6pcs) with a gasket(6pcs).

2. Install the seat plate with screw holes on the back of the seat cushion. Use the screw bolt M6x1.18inch(4pcs) with a gasket(4pcs).

3. Insert the backrest bottom into the slot of the seat plate, use the screw bolt M8x1.37inch(3pcs) to fix.

4. Insert the 5 casters into the alloy base, insert the gas lift into the hole on top of the alloy base, insert the top of the gas lift into the hole on the seat plate.

5. Use the screw bolt M6x0.78inch(2pcs) to fix the headrest onto the backrest then insert the screw slot cover.

OPERATION INSTRUCTION

1. Press the button to adjust the height of armrest, loose the button to fix the position

2. Hold the armrest you can move it to front/back/left/right.

3. Lift the left button to adjust the angle of backrest and release to lock.

4. Lift the right button to adjust the height of chair and release to lock.

5. Lift and push to adjust the lumbar support.
