Neutral Taupe fabric

Dual cable raceways

Combo clear/frosted glass

2-1/4" Design

Impressively thick 2-1/4" Panel Frames give a high end appearance to workstations

Glass windows allow light to filter into the work area.

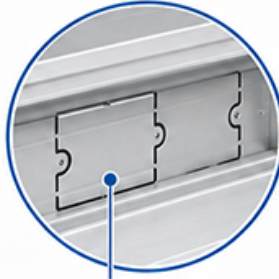

Simple connection system. No specialized installers needed.

INTEGRATED DUAL CABLE MANAGEMENT

Built-in cable troughs keep power and data cables organized, concealed and out of the way for a clean, professional workspace.

FLIP-DOWN METAL COVERS

Open both raceways for quick access, then close them to keep cables concealed.

REMOVABLE PUNCHOUTS

Configure cable access to suit your installation.

AMPLE RACEWAY SPACE

2-1/4" thick panels provide generous space for routing multiple cables.

NEAT & ORGANIZED
Route cables through the troughs to eliminate clutter and tangles.

PROTECT & PRESERVE
Enclosed raceways help protect cables from damage and wear.

FLEXIBLE DESIGN
Removable punchouts create access points for power and data where needed.

AMPLE RACEWAY SPACE
2-1/4" thick panels provide generous space for routing multiple cables.

CONVENIENT ACCESS
The upper raceway sits at desktop height for easy access.

Dual cable troughs keep cords organized from desktop height to floor level.

2-1/4" Thick Premium Office Panel Series

Full Specifications:

- Raceways at desk top height and base of office panel allows cords and cables to route through hollow channel and even through connection posts for complete cable connectivity
- Punch-outs in raceway panels for electrical/data outlets (Electrical not included. Must be supplied and installed by electrician).
- Lightweight yet durable aluminum frame. The panel core consists of rigid engineered wood.
- Neutral taupe fabric. Panels are non-tackable.
- Accepts outlet plates with standard 2-3/8" hole spacing. Plates with different spacing may require drilling of one screw into aluminum. Panels are non-powered.
- Superior metal frame construction creates a solid and stable office panel system. Strong enough to support work surfaces in metal frame channels.
- Flip down metal raceway covers conceal cable troughs measuring 7/8"D x 3-3/4"H. Panel end and connector post raceway openings are 3/4"D x 2-3/4"H.
- Includes a simple in-line connection system requiring no additional hardware. Easy set-up requires no special training or instruction.
- Adjustable leveling glides.
- Each panel includes a side edge finishing strip for a neat and finished appearance at the end of panel run.
