FEATURES

White laminate construction

Cable raceways

Combo clear/frosted glass

1-1/4" Design

Tall enough to provide full privacy yet do not interfere with HVAC and office lighting

Crisp white laminate brightens any work space. Glass windows allow light to filter into the work area.

Simple connection system. No specialized installers needed.

INTEGRATED CABLE MANAGEMENT

Built-in cable troughs keep power and data cables organized, concealed and out of the way for a clean, professional workspace.

NEAT & ORGANIZED

Route power and data cables neatly through the trough to eliminate clutter and tangles.

PROTECT & PRESERVE

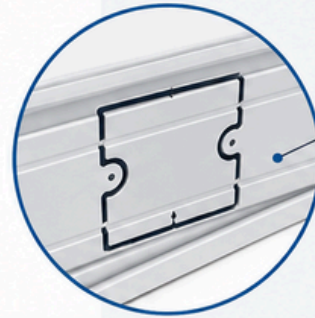

Cables are protected from damage and wear, extending their lifespan.

FLEXIBLE DESIGN

Punchouts can be removed as needed to create access points for power and data where you need them.

Flip-down metal cover provides easy access to cables while keeping them hidden from view.

REMOVABLE PUNCHOUTS

Punchouts can be removed if desired to accommodate your specific cable routing needs.

Cable troughs conceal cords within each panel for a clean, organized and professional look.

7'H White Laminate Office Panel Series

Full Specifications:

- Raceway at base of office panel allows cords and cables to route through hollow channel and even through connection posts for complete cable connectivity
- Punch-outs in raceway panels for electrical/data outlets (Electrical not included. Must be supplied and installed by electrician).
- Accepts outlet plates with standard 2-3/8" hole spacing. Plates with different spacing may require drilling of one screw into aluminum.
- Superior metal frame construction creates a solid and stable office panel system. Strong enough to support work surfaces in metal frame channels.
- Flip down metal raceway covers conceal cable troughs measuring 7/8"D x 3-3/4"H. Panel end and connector post raceway openings are 3/4"D x 2-3/4"H.
- Panel core features a rigid engineered wood frame with a hardboard core. Panels are non-tackable and non-powered. Not intended for use with dry/wet erase markers.
- Includes a simple in-line connection system requiring no additional hardware. Easy set-up requires no special training or instruction.
- Adjustable leveling glides.
- Each panel includes a side edge finishing strip for a neat and finished appearance at the end of panel run.
