1/4", 18-8

INSTALLATION HARDWARE IS NOT PROVIDED

INSTALLATION

Please read over all instructions carefully before you begin. If you have any questions please call your local dealer, or contact J&D Manufacturing at 1-800-998-2398.

Preparing JD360 for Installation:

- Rotate the 2 part hanging bracket in the upright position aligning the bolt holes in the brackets with the bolt holes in the mounting tabs
- Secure both sides of the bracket using included (2) 1/4"-20 x 1/2" SS Hex Head Bolts and (2) 1/4", 18-8 SS Split Lock Washers
- Tighten all 4 bolts (2 per side)

1

Installation Requirements and Recommendations:

- The weight of the JD360 is 32 lbs, use appropriate hardware and structure to support this weight when mounting.
- OSHA requires this fan to be mounted a minimum of 7' above the floor.
- For best results fan should be mounted
 - between 7' and 16' from floor
 - no further than 60' between each fan
 - with an obstacle free zone of 7' on center horizontally and 2' from bottom of guard and top of cone vertically

2

If using optional (not included) HK222 Round U-Bolt Mounting Bracket Kit proceed to [Step 3](#).

If using optional (not included) HK223 Square U-Bolt Mounting Bracket Kit proceed to [Step 4](#).

If not using optional (not included) Round or Square U-Bolt Mounting Bracket Kits proceed to [Step 5](#).

Optional (not included) HK222 Round U-Bolt Mounting Bracket Kit:

- Assemble Round U-Bolt Mounting Bracket Kit to fan and secure to 2" OD round pipe as shown below following the Installation Requirements and Recommendations indicated in [Step 2](#).

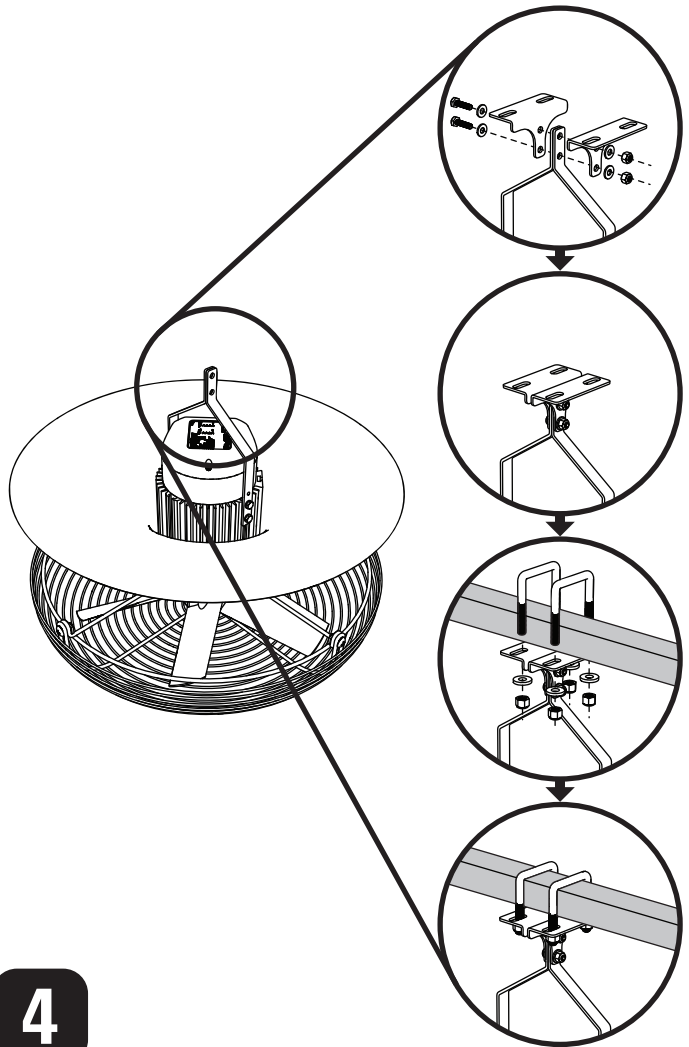

3

If assembled and installed optional (not included) HK222 Round U-Bolt Mounting Bracket Kit proceed to [Step 5](#).

Optional (not included) HK223 Square U-Bolt Mounting Bracket Kit:

- Assemble Square U-Bolt Mounting Bracket Kit to fan and secure to 2" OD square pipe as shown below following the Installation Requirements and Recommendations indicated in [Step 2](#).

4

Providing Power to Fan:

- Plug cord into 115 AC grounded outlet that meets national, regional and local codes.
- Route electrical cord from motor to outlet with drip loop. Drip loop will drain accumulated moisture away from the motor and outlet.
- Only permit power to unit when guard is installed to prevent injury.

Maintenance Instructions:

- Disconnect power before cleaning or maintaining your fan in order to prevent serious injury or death.
 - Service and repair of fan should only be completed by a qualified technician.
 - For maximum efficiency and fan life, keep the following free from dirt and dust: blades, cone, motor and guard.
- 5
- The totally enclosed air over motor has sealed ball bearings and does not require additional oil.
