Composers Wanted

We hope you enjoy this work, and like the idea that you don't need to be a famous composer to get something published in electronic form. If you are a creative person who is intrigued by this concept, please feel free to contact info@tributek.com to have your work evaluated for electronic publishing by www.tributek.com. We will consider publishing all kinds of software, books of artwork, poetry, woodworking or other craft plans, original songs and other musical compositions, and all kinds of fictional and non-fictional books. Aside from quality considerations, our standards include publishing only works you would not be ashamed to have every member of your family see, regardless of their age. If your work is compatible with our philosophy and can be put into a downloadable form, send us an e-mail and pitch your idea.
