With Wi-Fi 802.11b/g/n both direct connect and network-enabled connections are available.
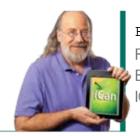

EduCam WiFi Wireless Camera 7880c

THE STAND-ALONE VISUALIZER AND DOCUMENT CAMERA

Designed for today's classroom, the EduCam 7880c is a stand-alone AND network-enabled visualizer/document camera that boasts 8+ hours of operations from a 7-hour charge for total portability, all self-contained in the base of the unit. The easy and simple package makes it ideal for student use and classroom portability. Able to support up to 30 viewing devices such as smart phones, computers, and tablets based on network.

With Wi-Fi 802.11b/g/n, both direct connect and network-enabled connections are available. Use it as a Stand-Alone camera with your smartphone and tablets, or connect it to your existing network for greater control and broadcast support. The unique broadcast algorithm guarantees crisp clear images unlike traditional streaming devices. The EduCam 7880c selects only the best images to share.
