CARDIAC SCIENCE

Burdick 8300 ECG Machine

The Burdick 8300 is a practical, no-nonsense ECG device. The Burdick 8300 ECG has a friendly user interface and clear, readable 5.7-inch monochrome display to make reading data easy, with protocol choices designed to streamline your work flow.

- ECG Device stores 50 ECGs
- Manual or automatic 3-, 4-, 6-, and 12-lead ECG printouts
- Standard with wired Ethernet and compatible with wireless 802.11.
- Bi-directional communication with our HeartCentrix connectivity software
- AccuPrint feature restricts ECG printing if lead wires are not properly attached
- Option to use the University of Glasgow ECG interpretation algorithm
- Warranty: 3-Year Parts and Labor from manufacturer

Proven performance using the GRI algorithm

The Burdick 8300 ECG cleans the ECG waveform before it is measured and analyzed by the Glasgow Royal Infirmary (GRI) algorithm. The GRI algorithm considers five clinically significant variables – including gender, age, race, medication, and classification – to interpret patient data

<i>Cat. No.</i>	<i>Description</i>	<i>Price</i>
E8300-E11	Burdick 8300 Interpretive Comm ECG Machine; Complete	3,930.00
E8300-EM1	Burdick 8300 Meas. Comm ECG Machine; Complete	3,480.00

CARDIAC SCIENCE

Burdick 8500 ECG Machine

The Burdick 8500 12-Lead Resting Portable ECG shows you what you need, comfortably. Burdick 8500 ECG equipment has a friendly user interface, multi-angle 7-inch widescreen, and color display that makes reading waveform data easy, and protocol choices streamline your workflow.

- View continuous 3-, 6-, and 12-leads of data on the color display ECG
- Adjust the unique 7-inch adjustable widescreen color display for contrast & visibility
- Store up to 300 digital ECG records (150 for E8500-EM1); enjoy on-screen QuickTips
- Reduce typing mistakes and save time by downloading patient information from your electronic medical record (EMR/HIS) system. Eliminates the hassle of scanning and filing
- Equipment includes an industry-leading, four-year warranty and service program for worry-free usage
- Equipment includes an industry-leading data acquisition speed (64,000 sps) for pacemaker detection

Proven performance using the GRI algorithm

The Burdick 8300 ECG cleans the ECG waveform before it is measured and analyzed by the Glasgow Royal Infirmary (GRI) algorithm. The GRI algorithm considers five clinically significant variables – including gender, age, race, medication, and classification – to interpret patient data

CARDIAC SCIENCE

Q-Stress

Cardiac Stress Test, Treadmill System

Innovation, precision, performance, unsurpassed quality and ease of use in integrated stress testing systems

New! Microvolt T-Wave Alternans™ for Q-Stress combines the industry’s leading cardiac stress test system with Cambridge Heart’s unique Microvolt T-Wave Alternans (MTWA) testing system, creating the most comprehensive, reimbursable cardiac risk-profiling system in the industry (US only). The Analytic Spectral Method® (ASM) detects every-other-beat patterns unique to patients at increased risk by analyzing the ECG in the frequency or spectral domain. Data shows that using frequency is superior at filtering out noise and artifact than using timing alone.

The Q-Stress cardiac stress test with treadmill system is designed with you in mind. Its easy-to-learn left-to-right workflow and simple-to-understand icons and intuitive controls guide technicians through the stress test. Busy stress labs use QuikLists to enter comments quickly and efficiently.

Proprietary algorithm, baseline wander, and motion artifact filters reduce noise and produce clean ECG tracings even at high speeds and steep grades. Perfect for pharmacological stress tests as well. Patients will appreciate getting the best test results the first time.

And Q-Stress is HL7 and DICOM compatible! Q-Stress has the flexibility to connect to your Healthcare IT systems in the way that works best for you to enhance your clinical workflow.

Features:

- Robust network connectivity – DICOM or HL7 connects with virtually everything needed for enhanced workflow. It’s compatible with your echo system, nuclear camera, EMR, HIS, PACs and other healthcare IT systems
- Full disclosure reports; allows you to save the whole exam and review it at any time by exporting to your electronic medical record (EMR) system or hospital information system (HIS)
- In-test review of stress testing data that includes “rewind” and “freeze frame” capabilities (both industry firsts) while still viewing the live test
- Ectopic capture and display for heartbeats outside the sinoatrial node
- Fully customizable panel display, plus the flexibility to add your own user-defined protocols
- Risk scoring, procedural re-analysis, and extensive report formatting options
- Warranty: 13-Month parts and labor from manufacturer

Cat. No.	Description	Price
Q40-1AEHLM	Q-Stress Base system with full disclosure, freeze frame, networking, and thermal printer	17,798.00
Q40-1AEHLM01	Q-Stress Base system with full disclosure, freeze frame, networking, thermal printer and TM55 treadmill	24,408.00
Q40-1AFDM	Q-Stress Advanced system with networking, Q-Exchange, Advanced Software Options Kit (Full Disclosure, Re-analysis, Freeze Frame, Risk Scoring), laser printer	20,848.00
Q40-1AFDM01	Q-Stress Advanced system with networking, Q-Exchange, Advanced Software Options Kit (Full Disclosure, Re-analysis, Freeze Frame, Risk Scoring), thermal printer & TM55 treadmill	27,459.00
00489-010	TM55 Treadmill 120v (when purchased separately)	6,975.00
036869-001	Chart Paper for Q-Stress; 218sheets/pk	28.50
015-0629-00	Baseline Blue Max Stress Prep Kit; 30/Case	439.00

All systems include premium stress cart, all accessories, cables and TM55 treadmill. Burdick Rep will set up your system.

CARDIAC SCIENCE

CareCenter MD Workstation

The comprehensive and cutting-edge ECG and Stress solution for today’s physicians. Cardiac Science, the company behind the trusted Burdick® and Quinton® brands, now offers an easy-to-use, customizable, and expandable solution that’s ready to grow with your practice. CareCenter MD™ is a multimodality PC-based wireless diagnostic workstation, designed to make your workflow much easier.

All the features you’ve been hoping for are here:

- Wireless data acquisition between patient and workstation means safety, comfort, and confidence for your patients and staff.
- Advanced connectivity streamlines your work, with or without an electronic medical records (EMR) system.
- Shared patient database for both ECG and stress testing means no re-entry of patient data.
- One-button navigation speeds you through each test; it’s very intuitive.
- Scalable design makes adding additional modalities a breeze (as they become available)

Features/Benefits

- Wireless data acquisition Safety, comfort, and confidence for your patients and your staff.
- One-button navigation Easy-to-learn graphical user interface; common for all modalities.
- Hook-up verification screen At-a-glance indication of proper electrode hook-up for better accuracy.
- Scalable design Designed to make adding future modalities a breeze.
- Flexible customization Modify and save screen views for each user and select reports that best fit your needs.
- EMR connectivity Import demographics and orders; export results to your EMR for future access.
- CareCenter MD OfficeNet Access all patient data and results throughout your network or from remote locations.
- CareCenter MD Online View live patient tests from a remote location and comment via instant messaging

One PC-based diagnostic workstation for ECG, Stress, and future modalities means just one simple system to learn, and no re-entry of patient information.

- The easy-to-read layout has a full display of key patient and test data. Plus, you have fast access to advanced display and analysis tools with just a mouse click.
- Flexible display options let you select from a variety of screen views on-the-fly and then save the one you want.
- Multiple report formats let you choose the ones that work best for you.

Cat. No.	Description	Price
CCMD-RUA1A	CCMD PC-ECG USB Diagnostic Workstation	3,565.00

Burdick Rep will set up your system.

**BIONET
CardioCare 2000**

- Full size print-outs with 12-channel interpretive ECG
- Over 130 kinds of interpretation results based on advanced Minnesota code
- Connection with PC software, EKG-Plus II, through LAN
- 3-year Warranty from manufacturer
- Convenient copy button lets you generate ECG copies in various formats you want

A Great EKG Machine for only \$1,095.00

Complete with a patient cable, powercord, rechargeable battery, product manual, resting ekg electrodes, and sample recording paper.

Cat. No.	Description	Price
2000	CARDIOCARE 2000 ECG Machine; complete	1,095.00

**BIONET
CardioTouch 3000**

- Full size print-outs with 12-channel interpretive ECG
- Built-in Battery Pack
- Analysis & Measurements
- Easy 1 button operation
- 85 kinds of Interpretation results based on advanced Minnesota code
- Color TFT LCD with 12-channel simultaneous display and Touch screen for intuitive operation
- Supports the use of normal fax paper that reduces operating costs
- Memory for up to 120 patients
- 3-Year warranty from manufacturer

A Great EKG Machine for Just \$1,795.00

Advanced Interpretation, Full-Page Reports & LCD Screen For Just \$1,795!

Complete with patient cable, powercord, rechargeable battery, product manual, resting electrodes, and sample recording paper.

**CARDIOLINE
ar600adv ECG**

A portable interpretive electrocardiograph and much more

- Automatic, manual and pre-programmed recording mode
- Multi-channel print format on 60 mm paper: 1, 2, 2+R, and 3 channels
- LCD Display & Alphanumeric keyboard
- Paper in rolls and packs
- Dual power supply: mains and rechargeable internal batteries
- Memory of the last ECG recording and printing of additional copies
- Time and date indication
- Options available: Memory option, ECG measurements option, ECG analysis program, Arrhythmia option, HRV analysis option, PC archive option, PC ECG option

Cat. No.	Description	Price
AR600ADV	Cardioline ECG Machine; Complete	1,809.00

**CARDIOLINE
Elan 1100 ECG** *A new concept of electrocardiograph*

Integrates with hospital information systems, communicating through any channel, from a LAN to the telephone system, without complicating routine work.

The START key starts registration of the ECG test in manual, automatic mode or wizard mode with name and functions selected by the user. The high-resolution LCD screen make it very easy to use. The Monitor displays 12 ECG channels at a time, it is to modify sensitivity, speed and visualization (from 1 to 12 channels). It is also possible to review the trace and diagnosis of an earlier test. Options available: Memory option, ECG measurements and Interpretation option, Networking option, Stress Test option, PC ECG option

Cat. No.	Description	Price

**GE
Mac® 1200 Resting ECG System**

Designed for use in clinics, physician offices and clinical trials, the MAC 1200 offers scaleable ECG solutions with practical features, while providing a high level of quality and convenience.

- One-touch operation for acquisition, analysis, storage and printing
- Measurements, interpretation and memory options are available in any combination to meet specific customer needs
- 4 user-definable fields for patient data entry flexibility
- Waveform display allows rapid assessment of ECG rhythm and signal quality
- Portable, lightweight design with carrying handle
- CT (Clinical Trial) data guard features help guarantee the integrity of the digital ECG record

Cat. No.	Description	Price
MAC1200	Non-Interpretive ECG machine; Complete	3,875.00
MAC1200I	Interpretive ECG machine; Complete	3,999.00

**GE
Mac® 1600 Optional Interpretive ECG**

- **Diagnostic confidence** – The GE Marquette 12SL ECG analysis program provides true, computer-interpreted analysis of adult and pediatric populations.
- **Signal quality** – The Marquette 12SL Hookup Advisor™ ensures ECG signal quality from the start. This exclusive GE algorithm goes beyond simple electrical checks to advise clinicians of poor waveform quality during the recording of ECGs.
- **Easy configuration** – The MAC 1600 automatically captures 10-second ECGs with one-touch operation. Additionally, you can select the rhythm ECG mode to continuously review all 12 leads, or the arrhythmia mode for an extended review of arrhythmias or events.
- **Comprehensive** – Its online editing and re-analysis of ECG waveform capabilities enhance the accuracy of patients' records.
- **Connected and scalable** – Not only is the MAC 1600 capable of seamlessly connecting to the MUSE and CardioSoft information systems, it also adapts to your specific needs and can be expanded as those needs grow.
- **EMR Ready** – The MAC 1600 connects easily to your EMR system through GE's CardioSoft software

MAC1600	Interpretive ECG machine; Complete	7,725.00

MIDMARK

IQ ECG Digital Interpretive

The Midmark IQecg makes your job easier with a range of reviewing and editing tools to help increase productivity and efficiency. At the touch of a button, you can capture an abnormal ECG as it appears on screen, enhance the diagnosis with tools like zoom and electronic calipers, quickly edit statements and perform serial comparison.

- Lightweight, portable design, weighing less than 11 oz.
- View and monitor live, 12-lead ECG in selectable formats on screen
- Interpret and analyze data for neonate, pediatric and adult patients via the Midmark 12-lead Resting Electrocardiogram Analysis Program
- Review and edit ECG results on-screen with free text or customizable quick edit statements
- Perform serial comparison with overlay of up to 4 ECG tests
- Save time and reduce data entry errors by populating patient information directly from your EHR/EMR software
- Facilitate paperless office strategy-eliminate costs of thermal paper and the hassles of scanning and filing patient charts

If you have an EMR System no software is needed. If no EMR System, order software #4-100-1200

Cat. No.	Description	Price
4-000-0061	IQ ECG - USB Version	4,595.00

PHILIPS

PageWriter TC30 ECG

Advanced, yet easy to use, the PageWriter TC30 offers speed of operation in an attractive and affordable solution that can grow with you as your workflow evolves. Expect fast, efficient clinical workflow, combined with reliable operation for you and your patients.

The easy 1-2-3 operation, touchscreen display, and additional tools help ensure quality ECG reports.

The PageWriter TC30 provides advanced tools to enhance workflow and support clinical decisions. All PageWriter TC cardiographs include the clinical excellence of the DXL ECG Algorithm which is built upon over 45 years of research and experience. High-performance that is cost-effective. Trident 3-in-1 chest leads reduce tangling and lead reversals. The anatomical patient interface module mirrors the body, so clinicians can quickly connect the correct leads. Quickly identify poor or missing electrode connections via color-coded traces and Lead Map. The high-resolution color display allows quick preview of the ECG report – before printing. Again, High-performance that is cost-effective from Philips.

PHILIPS

PageWriter TC50 ECG

The Philips PageWriter TC50 cardiograph is an advanced, reliable, and compact ECG solution, that is easy to use to help you meet the demands you face every day and keep the focus on your patients.

With the PageWriter TC50 cardiograph, each button lights in sequence, simply prompting you to take an ECG as easily as 1-2-3.

The high performance PageWriter TC50 cardiograph features an automated ECG report sequence with integrated wireless transfer of ECGs to streamline your workflow. The TC50 has a large 10" touchscreen, and simple 1-2-3 guided process for taking ECGs. The 3-in-1 Trident lead wires minimize tangling. You can mark cardiac events for later review with an anatomic patient interface module which supports correct lead placement, and Integrated interpretation on up to 16 leads.

PHILIPS

PageWriter TC70 ECG

The Philips PageWriter TC70 cardiograph is designed to meet high-volume ECG demands—where the going is rough but quality is critical. A high-resolution 15" touchscreen clearly displays up to 10 seconds and 16 leads, color-coded for signal quality. Advanced, yet easy to use with the PageWriter TC70 cardiograph, each button lights in sequence, simply prompting you to take an ECG as easily as 1-2-3.

- 3-in-1 Trident lead wires minimize tangling
- Mark cardiac events for later review
- Anatomical patient interface module supports correct lead placement
- Strong wireless security toolset 802.11(i), WPA2
- Integrated interpretation on up to 16 leads, Advanced STEMI clinical decision support tools,
- Previous ECGs at the bedside for immediate comparison

EXCEED Your Expectations...Not Your Budget

Cardiovit AT-1 & AT-1i

1/3-channel ECG at the price of a single channel ECG!

- 3 channel representation of all 12 simultaneously acquired leads with One Button operation
- Automatic and manual mode
- Multiple report formats, copy function, various recording speeds
- Integrated rechargeable battery and integrated power supply
- Optional measurement and Interpretation software

Cat. No.	Description	Price
AT-1	Cardiovit AT-1 Standard	1,550.00
AT-1i	Cardiovit AT-1i Interpretive	1,740.00

Cardiovit AT-2 Light

Schiller's new AT-2 light offers the economics of a low cost unit with many of the high end features needed to care for your patients.

- Alphanumeric keyboard & big LCD for user friendly operation
- 6-channel print-out in real time at 5, 25 or 50 mm
- Automatic 8-1/2 X 11 printout for 6 & 12 channels
- ECG Interpretation program including complete measurement for adult and pediatric
- Battery operation of up to 6 hours or line operation
- 4 Year manufacturer warranty

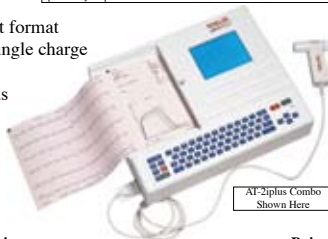

Cat. No.	Description	Price
AT-2LITE	Schiller AT-2Lite ECG; Complete w/patient cable	2,735.00

Cardiovit AT-2 series

- Full size, 8-1/2" x 11" reports
- 3 channel rhythm monitoring, 6 channel print format
- Built-in battery provides 300+ reports on a single charge
- Simultaneous 12-lead acquisition
- Fully automatic operation and only 11 pounds
- Copy function & Pre-programmed report formats
- Lead-off and battery low indicators
- Optional ECG interpretation with measurements

The AT-2i Plus features Alphanumeric keyboard, high resolution preview screen and optional adult and pediatric interpretation with measurements. The AT-2i Plus Combo also includes the Spiro SP-250 Spirometry as part of the machine.

Cat. No.	Description	Price
AT-2	Cardiovit AT-2 Standard	2,150.00
AT-2i	Cardiovit AT-2i Interpretive	2,299.00
AT-2IPLUS	Cardiovit AT-2iPlus Interpretive	3,395.00
AT-2IPLUS-S	Cardiovit AT-2iPlus Combo/Interpretive	4,895.00

Spirovit SP-1 Spirometry made simple and affordable

- FVC, SVC, MVV, MV and pre/post medication tests
- Choice of predicted normals
- Simple operation
- Battery operated
- Internal memory for up to 100 tests
- Ready-to-file reports within seconds on 3.5" (90mm) paper
- Data transmission via built-in RS-232 interface to PC
- Unique sensor technology (SP-150 or reusable (SP-20) flow sensors)
- Affordable, fast, reliable

Cat. No.	Description	Price
SP-1	Schiller Spirovit SP-1	2,150.00

WELCH ALLYN CP100 Series

- Full alphanumeric keyboard and LCD display for fast and easy entry of information
- Advanced filters for optimal ECG trace quality ensure accurate readings
- Customizable report formats allow you to print information the way you need
- Battery operation lets you easily transport your device to the patient
- Instant-on feature powers the device up quickly so you can take an ECG quickly
- Optional MEANS ECG interpretation software offers a second opinion
- Help feature gives you patient education tools and answers system operation questions
- Uses SD cards for mass ECG data storage or to transfer data to software or an EMR

Cat. No.	Description	Price
CP100	Welch-Allyn Non-Interpretive ECG	3,895.00
CP100I	Welch-Allyn Interpretive ECG	4,995.00

WELCH ALLYN CP200 Series

- Full alphanumeric keyboard and LCD display for fast and easy entry of information
- Advanced filters for optimal ECG trace quality ensure accurate readings
- Customizable report formats allows you to print information the way you need
- Battery operation lets you easily transport your device to the patient
- Instant-on feature powers the device up quickly so you can take an ECG quickly
- 12-lead non-interpretive resting ECG which includes accurate ECG measurements
- Optional MEANS ECG interpretation software offers a second opinion
- Help feature gives you patient education tools and answers system operation questions
- Uses SD cards for mass ECG data storage or to transfer data to software or an EMR
- Dedicated function keys speed access to common actions
- Store up to 50 ECGs and 50 spirometry tests for later review and editing of patient data and interpretation
- Use Schedule Test mode to enter all patient information in at the beginning of the day so you can use your time more efficiently
- Administrative functions with password log-on controls to support HIPAA compliance
- Optional hardwired direct connection to Welch Allyn CardioPerfect Workstation

Cat. No.	Description	Price
CP200	Welch-Allyn Non-Interpretive ECG	3,875.00
CP200I	Welch-Allyn Interpretive ECG	4,325.00
CP200S	W-A Non-Interpretive ECG w/Spirometry	6,795.00
CP200SI	W-A Interpretive ECG w/Spirometry	7,850.00

BIONET

Multi-Parameter Vital Signs Monitor

- ECG, SpO2, NIBP, Respiration and Optional Temperature
- 8.4" High resolution screen monitor
- Individual sweep speed setting for each parameter
- Multiple display modes including Large Parameter View
- SpO2 Pitch tone
- Li-ion rechargeable battery allows cordless use up to 2 hours
- 128 full hours of trend data are stored
- Saves 20 cases of 10 sec alarm waveforms for later review
- Very low-perfusion SpO2 measurement
- Blood pressure accuracy based on clinical trials

3 YEAR WARRANTY (3 months on accessories)

Mr. ELECTRODE

- Mr. Electrode produces the quickest, clearest and most accurate ECGs
- No preparation for most patients
- No mess, clean-up or cross contamination
- Shelf life is approximately 1-1/2 years
- Connects to virtually any resting ECG patient cable

COVIDIEN Q-Trace® 5400

The Q-Trace 5400 uses a conductive adhesive hydrogel for excellent adhesion and low impedance for clear, reliable tracings. With balanced adhesive tack - adheres well yet is easily removable and convenient - with no messy cleanup or residue. Using Silver/silver chloride technology, reliable, dependable trace quality every time.

HEARTWISE

ICG/TEB Electrodes

Dual Solid Gel Electrodes (for CARDIODYNAMICS BioZ and ICG/TEB machines)

These FDA approved Impedance CardioGraphy electrodes (a.k.a. Thoracic Electrical Bioimpedance electrodes) are of the highest quality. They have impedance characteristics which meet or exceed those required by all known manufacturers. These electrodes mechanically fit Bio-Z, Hemo Sapiens, HOTMAN Systems, Heartwise Platforms, and others. These dual electrodes have a 5 cm (2 inch) spacing between studs (snaps). They have the unique, oversized, 3/16" studs (snaps) required by some ICG/TEB machines. They are also available in standard 5/32" studs. **3-1/2 in length.**

The 3/16" stud (snap) is the popular size and fits Cardiodynamic machine applications

Chart Paper that fits the Cardiographic BZ machine is M1707A

- Dual stud solid gel electrode
- Impedance Characteristics meet all known manufacturers
- Fits Bio-Z (Cardiodynamics), Hemo, Sapiens, HOTMAN Systems, Heartwise Platform, and others.
- 5cm (2 inch) spacing between Studs (snaps)
- Fits 3/16" studs (snaps), Also available in standard 5/32" studs
- Case equals 100 Patient applications

Cat. No.	Packaging	Box
HW404SG3/16	Size 3/16 stud; 4/pch, 40/bx, 10bx/cs	76.50
HW404SG5/32	Size 5/32 Stud; 4/pch, 40/bx, 10bx/cs	76.50

CardioDynamics BioZ 4110-121 ICG Battery

Replacement Biomedical Battery for CardioDynamics BioZ 4110-121 ICG Monitor. This NiMH battery has a nominal voltage of 12.0V and a rated capacity of 2.7Ah. This battery is a rebuild battery. We require that a spent battery be sent in to us to be rebuilt.

Trace-It™ Foam Electrodes

For Resting ECGs. Superb for Echo Procedures Too!

A new concept in pregelled electrodes, designed for performing routine electrocardiograms.

- Eliminates messy clean-up
- Guaranteed gel freshness of 90 days out of trays!
- Eliminates cross-contamination
- Approximately 1-1/2 year dating
- Silver/silver chloride
- Size: 1-1/8" x 2-1/2"

CHP

Plate Electrodes

Precision made electrodes for limbs. Universal for all ECG machines. Nickel-Silver. These plates require a single-hole strap for securement.

Cat. No.	Description	Each
007161	Infant; Burdick; fits .125 pin	17.50
007550	Adult; Burdick; fits 4mm banana	17.50
1153-0404	Adult; Bowen; fits 4mm	13.75
40491E	Adult; Philips; fits 4mm banana	29.50

PHILIPS

Reusable Plate Electrode

Reusable adult or infant limb/chest plate electrode for 1/8" post cable end connection (standard); screw-in connection.

Cat. No.	Packaging	Pkg
40423A	Infant, 4/pkg	130.00
40425A	Adult, 4/pkg	158.00

PHILIPS

Reusable Limb Plate Electrode

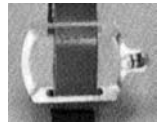

PUSH IN TYPE. Reusable limb plate electrodes for 1/8" post cable end connection; nickel-silver. Fits all EKGs with standard 1/8" post-end lead.

Cat. No.	Packaging	Pkg
40424A	4/pkg	9.50

FUKUDA DENSHI

Metal Plate Limb Electrode for OB-14 Strap

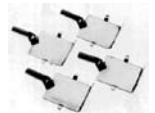

Cat. No.	Description	Each
TE-31	Plate Electrode	11.50

BOWEN

Limb Electrodes

Spring-clip connection and held with single-hole strap.

Cat. No.	Description	Price
1153-0302	4/pk; fits .125 pin (3.2mm)	25.00
1153-0303	1/ea; w/snap attachment	6.65
1153-0304	1/ea; fits 4mm banana	6.38
40491E	Philips, 1/ea; fits 4mm	29.50

CARDIAC SCIENCE

Cardiac Science AED Battery 9146-302

Alternate Part Numbers: 9146-002, 9146-102. The Cardiac Science AED Battery (yellow) is a replacement IntelliSense Lithium Battery for Powerheart AED G3 models 9390E, 9390A, 9300E and 9300A shipped AFTER April 12, 2004.. Replaces #9146-202

Cat. No.	Description	Each
9146-302	Cardiac Science AED Battery	369.00

CARDIAC SCIENCE

Cardiac Science AED Battery 9146-101

The replacement IntelliSense Lithium Battery (white) is for PowerHeart AED G3 models 9300E and 9300A shipped AFTER April 12, 2004.

Cat. No.	Description	Each
9146-101	Cardiac Science AED Battery	369.00

CARDIAC SCIENCE

Battery For PowerHeart G3 AED

The replacement IntelliSense Lithium Battery is for the Powerheart AED G3 model 9300E shipped BEFORE April 12, 2004. Alternate part number 9142-001

Cat. No.	Description	Each
9142-101	Cardiac Science AED Battery	359.00

CARDIAC SCIENCE

Cardiac Science G3 Pro AED Battery

The non-rechargeable IntelliSense Lithium Battery is for Powerheart AED G3 Pro Model 9300P. Replaces part # 9145-001

Cat. No.	Description	Each
9145-301	Cardiac Science AED Battery	402.00

CARDIAC SCIENCE

Cardiac Science G3 Rechargeable Battery

The rechargeable battery is for Powerheart AED G3 Pro model 9300P Charger kit (9044-001) is not included.

Cat. No.	Description	Each
9144-101	Cardiac Science AED Battery	402.00

CARDIAC SCIENCE

FirstSave AED G3 Battery 9143-101

The 9143-101 battery is to be used only with the FirstSave G3 AED. 1-Year warranty. Alternate part # 9143-001

Cat. No.	Description	Each
9143-101	Cardiac Science AED Battery	500.00

CARDIAC SCIENCE

AED Intellisense® Lithium CardioVive® AT

Intellisense Lithium Battery for use in CardioVive AT AEDs. Replaces #9146-103

Cat. No.	Description	Each
9146-303	Cardiac Science AED Battery	369.00

CARDIAC SCIENCE

Powerheart® AED Ready Kit

This Ready Kit clips onto the carry bag of the Powerheart AED and provides key tools for responding to sudden cardiac arrest. The kit includes:

nitrile gloves, razor, scissors, towel, 4" gauze, one-way filter mask, and carabineer attachment.

For Use With: For use with all Powerheart AED G3 Family Models.

Cat. No.	Description	Kit
5550-005	AED Powerheart Ready Kit	Call

PHILIPS

Philips OnSite & FRx AED Battery M5070A

The M5070A is a replacement battery for the Philips HeartStart OnSite and FRx AEDs. This automated external defibrillator (AED) battery is a 9 Volt DC, 4.2 Ah disposable long-life lithium battery. Its capacity is a minimum of 200 shocks or 4 hours of operating time.

Cat. No.	Description	Each
M5070A	Philips AED Battery	153.95

PHILIPS

Philips HeartStart FR2 AED Battery M3863A

Replacement battery for the Philips FR2+ automated external defibrillator (AED). This 4-Year battery for the Philips FR2+ AED is a lithium manganese dioxide battery and is good for up to 300 shocks or 12 hours of patient monitoring.

Cat. No.	Description	Each
M3863A	Philips AED Battery	299.00

PHILIPS

Philips Forerunner BT1 AED Battery

The BT1 is a replacement battery for the Philips Heartstream Forerunner AED.

Cat. No.	Description	Each
BT1	Philips AED Battery	195.00

Cat. No.	Packaging	Price
8900-0402	Adult; 2pc Set	75.00
8900-0400	Adult; 2pc Set (8 sets)	560.00

ZOLL AED Plus

AED Plus defibrillates, provides feedback to help with effective CPR, and supports the full Chain of Survival

The ZOLL AED Plus combines superior biphasic defibrillation with fast and simplified electrode placement. Only the ZOLL Rectilinear Biphasic waveform has proven its clinical superiority for defibrillating VF in high-impedance patients. It also reduces exposure to high peak current and keeps an optimal waveform shape over a wide range of patient variability - enhancing efficacy while reducing the risks of inappropriate currents.

Cat. No.	Description	Price
210000101020110	AEDPLUS Complete system; includes Softcase, Operator's Guide, electrodes, batteries, ECG, wall bracket	1,695.00

SUMMIT Vista ABI

Fast - Efficient ABI System for the Diagnosis of Peripheral Arterial Disease

- Automated cuff inflation/deflation system
- Graphic waveform display with step-by-step ABI instructions
- Built-in printer for waveforms, pressures and indices on adhesive-backed label paper
- Bi-Directional Doppler (8 MHz probe) with 4 blood pressure cuff
- Pulse Volume Recording (PVR) waveform modality

Cat. No.	Packaging	Price
L450VA	Vista ABI Unit; Complete	5,750.00

SUMMIT Vista AVS

The Vista AVS is a full-featured ABI/Segmental system designed to make the ABI and other arterial exams faster and easier to conduct, interpret and document.

- Automated cuff inflation/deflation system
- Graphic waveform display with step-by-step exam instructions
- Automatic ABI, TBI and segmental calculation
- Bi-Directional Doppler (8 MHz probe) with 9 blood pressure cuffs
- Pulse Volume Recording (PVR) modality
- Software for full-page reporting and exam storage, provides download capability in PDF, CSV or DICOM file formats (DICOM™ feature available upon request)

Cat. No.	Packaging	Price
L500VA	Vista AVS Unit; Complete	8,325.00

CARDIAC SCIENCE

MTWA (T-Wave) Sensor Kit

MTWA (T-Wave) sensor kits (set of 10) - for use with MTWA for Q-Stress.

Cat. No. **Packaging** **Set**
XELMTWA10A *10/set* *905.00*

CARDIAC SCIENCE Stress Test Kit

Each kit contains the following:

- (10) - BlueMax Foam electrodes
- (1) - Skin Rasp
- (1) - Cable restraint
- (3) - Alcohol swap sticks
- (1) - Neosporin Ointment
- (1) - Moist wipe
- (1) - Prep Razor
- (1) - Instruction sheet

Cost effective and convenient. Prep kits provide an alternative to bulk inventory supplies for stress testing.

-------------------------------	------------------------------------	---------------------

PARKER Signa Gel® Electrode Gel

A highly conductive multi-purpose electrolyte that meets all the standards of the ideal saline electrode gel. Great for all ECG applications, electrosurgery, defibrillation, bio-feedback, EMG.

Cat. No. 15-60	Description 60 gm tube, 12ea/bx	Each 2.15
	250 gm tube, 12ea/bx	3.15

PARKER Spectra 360® Electrode Gel

The only salt-free and chloride-free electrically conductive gel! Particularly suitable for long-term applications! Non-irritating.

Cat. No. 12-08	Description 8 oz. tube, 12ea/bx	Each 3.15
--------------------------	---	---------------------

3M Electrode Attachment Tapes

Micropore Tape™

Hypoallergenic adhesive surgical paper tape. Leaves no residue. Microporous. Adheres firmly. Conforms well. White.

Cat. No. 15301	Description 1"x10yds; 12/bx	Box 8.95
--------------------------	---------------------------------------	--------------------

Durapore™ Tape

Strong, highly adhesive and non-irritating. Hypoallergenic. Conforms well to patient. Great for electrode attachment. Rayon cloth tape. White

Cat. No. 15381	Description 1"x10yds; 12/bx	Box 16.95
--------------------------	---------------------------------------	---------------------

Transpore Tape™

Lightweight, clear plastic tape for securing Holter Leadwires in place. Hypoallergenic adhesive. White.

Cat. No. 15271	Description 1"x10yds; 12/bx	Box 18.95
--------------------------	---------------------------------------	---------------------

GE Dry Skin Prep Pad "The Pot Scrubber"

For a more aggressive prep! For single patient use only. Designed to lightly abrade the skin prior to application of ECG electrodes. Each pad measures 1" x 1-1/2". White.

Cat. No. 9386-100W	Packaging 540/case	Case 52.50
------------------------------	------------------------------	----------------------

NIKOMED NikoPrep

Adhesive Sandpaper Prep Strip

- Simply remove backing, place on finger then lightly abrade skin
- For first quality ECG recording

Cat. No. 2121	Packaging 10/card, 5cd/pk	Card 1.69
-------------------------	-------------------------------------	---------------------

3M "One Step" Electrode Skin Prep

One Step Skin Prep is a convenient skin preparation tape in a handy dispenser. No messy clean-up. Effectively abrades the skin.

Cat. No. 2236	Description 3/4"x196"; per roll	Price 18.50

Event & Holter Recorder

The DR200/HE is the industry's first combination Event plus 14-day Holter recorder. It can be deployed to a patient in either Event or Holter mode. In Holter mode with a single, fully charged AA battery and a 1GigaByte data card, the unit can operate as a 14-day Holter. When the DR200/HE is combined with Holter LX Analysis and LX Event software, you have the flexibility to use your capital equipment in the most efficient manner and you've increased the probability of capturing elusive cardiac events.

The DR200/HE blends the features of the DR200/E "Tel-a-heart" Event recorder and the established technology of the tried-and-true "workhorse" DR180+ Holter in a single, compact, rugged unit. The unit has smaller cable profiles for patient comfort, yet adds more functionality and convenience.

When deployed as a Holter, the DR200/HE has either 3-, 5- or 7-lead cables. When deployed as a Tel-a-heart Event monitor, it uses a 2- or 3-lead cable. The DR200/HE kit includes Holter cable (including spares), pouch, belt clip, removable media memory card, Operator's Manual and Hook-up Guide.

SCOTTCARE

Arrhythmia / Event Monitoring

EventCare® - Sophisticated, Yet Simple Arrhythmia Event Detection

Arrhythmia controls are growing at an exponential rate and the clinical and administrative management of these patients requires powerful solutions that can increase patient compliance and most importantly, technician productivity. ScottCare's event monitoring solutions exceed those expectations.

- "Smart" looping-style event recorders automatically detect cardiac events, such as bradycardia, tachycardia, atrial fibrillation and pause, without relying on patient intervention.
- This small, lightweight and compact post-event ECG recorder is designed to increase patient compliance.
- Whether performing traditional acoustic arrhythmia monitoring or utilizing new cellular event technology, EventCare efficiently manages all remote ambulatory monitoring requirements. It maintains an accurate inventory of devices and can also produce a wide array of administrative reports with EventCare Software.

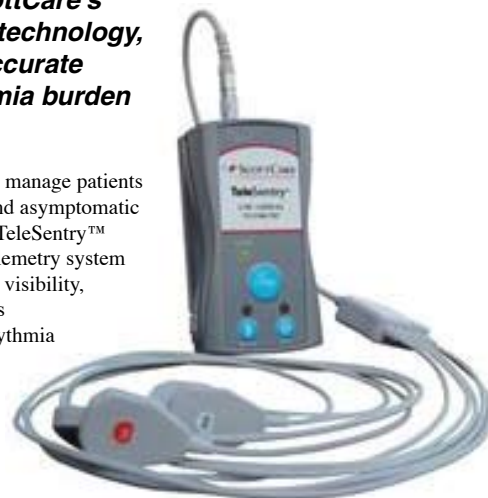

<i>Cat. No.</i>	<i>Description</i>	<i>Each</i>
275-1	Event Monitor; Complete; 1/ea	Call

SCOTTCARE

TeleSentry® Live Ambulatory Telemetry

Featuring ScottCare's proven A-Fib technology, supporting accurate atrial arrhythmia burden assessment.

Change the way you manage patients with symptomatic and asymptomatic cardiac events. The TeleSentry™ mobile outpatient telemetry system provides live patient visibility, analysis and wireless transmission of arrhythmia events, featuring remote device configuration.

- Auto-triggers and auto-transmits on bradycardia, tachycardia, pause and atrial fibrillation
- TeleSentry event processing platform allows for efficient receipt and triage of events, with optional Holter analysis and 24 hours or more of ECG data
- Transmission of ECG data via cell network improves patient compliance, reduces the likelihood of human error
- Available in 3, 5, or 12 lead configurations
- Live Patient Visibility
- TeleSentry software combines the power of ScottCare's EventCare and HolterCare products with daily heart rate trends, end of session reports, and summary statistics

SCOTTCARE

**Ambulatory Blood Pressure Monitoring
Accurate, Comprehensive BP Measurement**

A more meaningful and accurate way to measure hypertension than in the doctor's office, ScottCare's ambulatory blood pressure monitors provide up to 300 readings over a 24-hour period while the patient engages in normal daily activities. Detailed trends and graphs in ABPCare software allow you to easily correlate and compare data, including day and evening blood pressure; periods of normal, acceptable and critical readings; and average blood pressure versus heart rate.

Chroma® Holter Recorder

Designed with the clinician, patient and researcher in mind.

See Holter in a whole new light! In addition to being alive with dynamic color, the Chroma provides uncompromising clinical and technical performance in a small, lightweight package.

- The large, bright color OLED display facilitates clarity and ease-of-use
- Audible and visual patient lead disconnection notifications prevent data loss and incomplete studies
- Medication/activity reminders for medication compliance and research needs
- Superior pacemaker detection with adjustable sensitivity for the latest pacemaker technology
- Records up to 21 days of continuous, 3-channel ECG data
- HolterCare Software

Feature-rich software with critical diagnostic information. Helping you easily access and analyze the data derived from our Holter recorders, HolterCare uses advanced analysis techniques to provide the most accurate results. In fact, all vital information, including all arrhythmic and ischemic episodes, can be visually confirmed and edited using multi-level template editing, interactive trend editing, as well as superimposition and page mode review.

CARDIAC SCIENCE

Burdick Vision® 5L Holter System

Windows based software is easy to learn and easy to use. Studies conducted by MIT and the American Heart Association found that the Vision system consistently delivers results with 99.95% accuracy.

System algorithms, based on culmination of over 20 years of research, automatically identify abnormalities and compile them into easy to read reports.

QuickStep wizard provides a practical guide at every step of the analysis. Color coded abnormalities help even novice users identify potential problems. Full disclosure reports printed for all or any part of a patient's recording in various formats.

The Vision 5L Digital Recorder provides high-quality 5 or 7-lead, 3 channel Holter recordings with a signal preview screen. Fast data transfer using a compact flash card frees the recorder for immediate assignment to the next patient. Stores up to 48 hours of information.

- Easy-to-use five-button keypad to enter test parameters and patient demographics.
- Integrated pacemaker detection enables use on virtually any patient.
- Compact (4 oz.) size makes it easy for patient to wear on belt or lanyard. Uses 1 AA alkaline battery.

System includes Vision Software w/PC card interface. Vision 5L digital recorder and English language Single User license, 7 lead cable/leadset. Uses 1 AA alkaline battery. One year warranty on software and recorder. 90 days flash card memory.

Holter Cable Only. Usually 3, 5, or 7 Leads. They except leadwires shown on right and 20900 series listed above. Cable & Leadwire Set(s) are normally sold separately.

Holter Leadwires Set(s). For complete listing see 20900 series see above. They terminate at other end with snap leads

SONY

UP-897MD Black & White Video Printer

The Sony UP-897MD is a black & white video graphic printer that uses a thermal print system. The printer economically produces detailed hard copy images for medical applications such as ultrasound. Easy to operate. The leading choice for Cardiac office procedures.

- Hard copy prints in 2 seconds
- 256 shades of gray
- Features multiple print modes: normal, small, zoom 1.5x, zoom 2.0x, and large
- Picture sizes are 3" x 4" and 4" x 4"
- Accepts NTSC and PAL signals
- UL 544 listed
- Smaller and lighter than the 895 series
- Uses Sony UPP-110HA, UPP-110HD, UPP-110HG and UPP-110S print media

Cat. No.	Description	Each
UP-897MD	Sony black & white video printer; complete	849.00

SONY

UP-55MD Color Medical Grade Printer

The New UP-55MD medical grade printer with its slim design offers a powerful new set of exclusive features never seen before on a medical printer. This device is packed with performance, speed, durability and convenience. Identifying with the changing needs of the medical marketplace, the UP-55MD printer includes a new Image Port feature that allows the end user to capture printed still images automatically every time a print is made. The images can be stored on a USB portable storage device such as the Sony MicroVault™. Images can be later imported to a laptop or PC for use in medical report generation, PowerPoint presentations, or patient records. High resolution, A5 size prints are created in approximately 20 seconds in high speed print mode. The UP-55MD is the ideal choice for printing in cardiology applications.

**METREX
CaviWipes®**

The power of CaviCide in a wipe. A Disinfecting Towelette Proven to kill TB and HBV.

Presaturated with CaviCide®, CaviWipes® are the only cloths proven to kill both TB (5 minutes) and HBV (3 minutes) with quick, easy-to-use, time-saving convenience. CaviWipes are durable, nonwoven, nonabrasive towels that don't bunch up during use. They offer better surface contact than other wipes, requiring less force to apply solution to a surface. Increased fluid capacity keeps the cloths fully saturated with CaviCide. CaviWipes is a cleaner and disinfectant in one - saving money by reducing time and repetitive inventory. They're recommended for use on nonporous surfaces and fixtures.

**B-D
Guardian™
Sharps Containers**

The Guardian™ Sharps Container provides safe, secure means of disposal. One-piece or Clear snap-on lid for easy to see level of sharps or waste. Self-sealing lock-tight cap.

One-Piece Sharps Collectors

Cat. No.	Description	Each
BD-305487	1.4 quart; tray size	4.95
BD-305488	3.3 quart; small	6.99
BD-305489	6.9 quart; medium	9.75
BD-305490	8.2 quart; large	9.35
BD-305491	5 gal. x-lg (open top)	20.90

**COVIDIEN-KENDALL
Horizontal-Drop Opening Lids**

- For use on countertops or mounted on wall
- Horizontal drop maximizes use of container volume
- Large horizontal openings accommodate larger syringes
- Containers lock for final disposal
- Nestable containers save valuable storage space

Cat. No.	Description	Each
SG-8967-1	2 gal. transparent red w/clear lid	5.65

**COVIDIEN-KENDALL
Freestanding
Sharps Containers**

These sharps containers provide safe and easy disposal. Snap-on lids lock for final disposal. Containers and lids are red. Fill level can be easily monitored allowing for maximum container volume. The 1 quart container has a counter-top holder sold separately.

Cat. No.	Description	Each
SG-8900	1 quart	3.49
SG-8920	2 quart	3.45
SG-8950	5 quart	4.95
SG-8980	8 gallon	27.35

**B-D
Nestable Sharps Containers**

Nestable for efficient storage. Carrying handles. Guards against needle "bounce back". Can use on counter top or wall mounted.

Cat. No.	Description	Each
BD-305460	8-qt clear top/red bottom	8.95
BD-305464	3.5 gal. clear top/red bottom	12.25

**SHARPSTAR IN-ROOM
System w/SHARPSTAR Lids**

- Minimizes the potential for overfilling by stopping in the "FULL" position when it reaches maximum capacity, also allows visual monitoring
- Economical horizontal drop maximizes use of container volume
- Unique lid design limits accidental or intentional access to containers contents for pediatric, geriatric, or high risk areas
- The NEW SHARPSTAR IV container has an expanded disposal opening to safely accept the largest sharp used in patients room
- Allows for visual monitoring

Cat. No.	Description	Each
8507SA	5 quart, transparent red	6.25
8537SA	3 gallon, transparent red	10.95

**B-D
Nestable Patient
Room Collector**

5.4 quart nestable next generation patient room collector! Red with horizontal entry. Convenient and secure disposal.

Cat. No.	Description	Each
BD-305517	5.4 Quart	8.65

**BAXTER
Sharps Containers**

Ready-to-use autoclavable containers feature locking snap-open cap and one-way access to help prevent needle stick injuries. All containers are red.

Cat. No.	Description	Each
BX-184	4.8 quart	6.25
BX-182	6.2 quart	7.50
BX-186W	12 quart	11.15

**COVIDIEN-KENDALL
SHARPS-A-GATOR Tortuous
Path Sharp Containers
2.5 & 5 Qt.**

- One-hand, one-step, no-touch sharps depositing
- Horizontal loading
- Tortuous-path design impedes hand entry
- Clear top standard, translucent base offerings

5 Quart Tortuous Path Sharps Containers

Cat. No.	Description	Each
31143897	5 quart, clear (4838C)	4.10
31143723	5 quart, translucent almond (4838T)	3.99

**COVIDIEN-KENDALL
MONOJECT Sharps Containers**

- Polished viewing windows on four sides
- Translucent red color
- Clear lid with extra-wide butterfly closure
- Needle removal notches
- Can be autoclaved or incinerated

SDI AstraTouch™ Spirometer Comprehensive Touchscreen Spirometry

The AstraTouch Desktop Spirometer provides easy navigation when performing comprehensive spirometry testing. Its multifunctional capabilities provide a means of making a diagnostic decision from the screen data, from its resident printer or off-line report writers. PC links via USB or optional Bluetooth make easy work of storing data archivally, transferring tests to EMR or performing real-time direct testing.

The AstraTouch Spirometer was designed to be easy to use while providing accurate and precise testing data. The simplicity of operation and wealth of configurability options expand the scope of spirometry testing like never before. Review and enter data, make a diagnosis, print a report or download to EMR quickly and with minimal effort.

SUMMIT

Pocket Doppler

The L250 features a display unit with superior sound quality, extended battery life, enhanced probe sensitivity, interchangeable probes, and a one-year full warranty. The large informative display shows battery life, signal quality, and extended 50 to 220 bpm heart rate. Specify 4, 5 or 8MHz probe.

The 4 MHz vascular probe is designed to ease location of blood vessels. The broad, wide-angle beam has internally tilted crystals that are optimized for quickly locating vessels.

The 5 MHz vascular probe is designed to ease location of deeper vessels. The medium width beam and pencil-style shape provides optimum sensitivity and ease of use.

The 8 MHz vascular probe is designed to ease location of surface vessels. The narrow beam and pencil-style shape provides optimum sensitivity and ease of use (It is the best general purpose vascular probe).

Cat. No.	Description	Price
L250	Pocket Doppler (w/1 probe)	669.00

 SUPER ODOR ELIMINATOR**

Natural enzyme mega odor defense spray. Safely & powerfully knocks out tough garbage & waste odors. Not a masking agent – leaves no lingering chemical smell. Non caustic. Biodegradable, Unscented and comes in a 16 oz. spray bottle, or a Gallon refill
16oz for \$7.92.

**NATURCARE®
 ENZYMATIC INSTRUMENT CLEANER**

Multi-enzyme cleaner & soak that rapidly penetrates, degrades and loosens organic matter from instruments, equipment, fabric & inaccessible areas. Non-toxic. Non-corrosive. Non-caustic. Rinse-free. Biodegradable.
 1 oz. NC to 1 gallon water ratio
 Pump not included.

NP-1963 INSTRUMENT SOAK; GAL 33.50

**NEWMEN MEDICAL
 The DigiDop
 Rechargeable Doppler**

- Tough and durable polycarbonate and stainless steel case
- Digitally Optimized Processing – DOP™
- ‘Unbreakable’ magnetic probe holder
- All probes are interchangeable
- Each main unit comes with choice of one probe
- User replaceable cord
- Powered by 3 AA batteries
- Extended battery life
- Dimensions (h x w x l): 152 x 64 x 32 mm
- Weight: 370 grams
- Full 2 year product warranty

<i>Cat. No.</i>	<i>(w/5mHz or 8mHz Probe)</i>	<i>Price</i>
DD301	DigiDop Non-Display Unit	499.00
DD701	DigiDop with Display Unit	629.00

Genetic Testing for Plavix and Coumadin Patients

Different genes regulate how fast or slow various drugs are metabolized which can cause problems with side effects and toxicity. MTL offers a buccal swab molecular test that provides the cardiologist with another tool to accurately dose their patients prescription therapy.

Call for more information and sample collection kits.

**TELEMED SOLUTIONS
 PC-Based Wireless 12-Lead ECG**

Uses the Glasgow 12-lead algorithm to output fully interpretive ECG statements. Reports include Global Measurements, Individual Lead Measurements and Diagnostic Interpretation. Uses Bluetooth wireless protocol.
Call for more Information.

<i>Cat. No.</i>	<i>Packaging</i>	<i>Price</i>
TM-12	PC-Based ECG; Complete	2,550.00

FOR REAL SAVINGS
Just \$37.00 Each

**DYNAREX
 Pulse Oximeter**

Non-Invasive Measuring of Oxygen Saturation

- Perfect spot checks or continuous readings
- Simple one button operation
- Checks heart rate
- Monitors respiratory function
- Calculates how much oxygen is carried in your blood
- Monitors of the saturation of a patient's hemoglobin
- Can detect hypoxia
- Monitors a patient's oxygenation and pulse rates when undergoing surgical procedure

<i>Cat. No.</i>	<i>Packaging</i>	<i>Each</i>
D-7088	Pulse Oximeter	37.00
