Jovision iPhone and iPad Setup Guide.

iPhone and iPad:

1. Download the CloudSEE iPhone app from the Apple store by searching "Jovision"
or you can download the app from here: http://www.jovision-usa.com/downloads.html

2. If you are downloading the app from our website, click the "Direct to Phone" link
to download it directly to your phone.

3. Locate the download in your phone and install it.

4. Open the Jovision Mobile software app.

5. Setup:
   Click the Cogwheel icon in the top left.
   Channel Settings → Yst test. (Yst is the iPhone default name)
   Type the ID / password (default ID: abc , Password: 123),
   Choose connection type : "CloudSEE"
   Type in your CloudSEE number.
   Save.

6. Viewing
   From the main screen with 4 camera panels, click on a camera panel, select your video source from
   the panel that pops up.
