

ANTIMICROBIAL CLEANER

Disinfectant cleaner for wood and vinyl floors

This is a cleaner both cleaning and disinfectant properties for all surfaces that can withstand water. Antimicrobial Cleaner contains a mild scent for sensitive people, making it suitable for both domestic and commercial use. Formula works well on all non-porous washable surfaces such as wood, PVC, linoleum, vinyl, other oiled/lacquered surfaces, stone, laminate, tiles, glass, porcelain etc. Product is having disinfection properties; active ingredients are tested against H1/N1 and X179A type of envelope viruses and proven effective

CLEANING OF ALL KINDS OF FLOORS:

Before using Antimicrobial Cleaner remove all loose particles which might scratch the surface by vacuuming or dry sweeping the floor. Apply Antimicrobial Cleaner by spraying to surface and wipe with mop or cloth. Flush and squeeze the mop in water regularly. Remove excess water from the mop before spraying Cleaner on the floor. Rinsing after cleaning is not necessary.

Note: Store the bottle in an up-raise position.

ARTICLE NUMBER:
710801, Kährs Antimicrobial Cleaner

TECHNICAL DATA

pH: Approximately 8

Recommended working temperature: Between 13°C (55°F) and 25°C (77°F)

Storage: Best before 2 years in unopened container from date of production. Store on temperatures between 5°C (41°F) and 25°C (77°F). Protect from freezing.

Cleaning of tools: Clean tools in water after use.

Chemical ingredients: < 0,25 % Non-ionic surfactants , <0,25% cationic surfactants, perfume
Active substances: Quaternary ammonium compounds, benzyl C12-16 alkyl dimethyl, chlorides approximately 1,23g/l.

Toxicity: Non-hazardous

Flammability: Non-flammable

Application: Liquid ready to use.

Packaging: 750 ml plastic bottle
