The Olympian offers infinite height adjustment with unmatched durability and stability! First Team has designed the Olympian to outperform ANY basketball system on the planet! The Olympian's toughness and rigidity will amaze you and make your court the envy of the neighborhood!

The Olympian's oversized 6" x 8" x 1/4" thick wall is a monster! Combine this with our LCG (Low Center of Gravity) pole structure design and welded dual strut extension arm and it makes for the most rigid pole structure available, hands down! The post is set back 4' from the backboard to maximize safety as well. The bolt down anchor footing allows you to easily relocate the unit if you move.

Our EZ-Crank™ adjustment and trademarked "Double Spring-Assist" make rim height adjustments a snap! To adjust, simply turn the crank handle. Any age player will be able to quickly and easily change rim heights anywhere from 10' down to 6'6". A clear and accurate rim height indicator is included.

First Team offers you a choice of clear acrylic or tempered glass backboards on the Olympian. Our Response™ tempered glass backboard offers the same look and authentic ball rebound enjoyed by college and professional players.

For additional safety, pole padding and backboard padding are available for any Olympian basketball system.

Every Olympian package comes with a Lifetime Superior Warranty.
