

the TITAN

ADJUSTABLE BASKETBALL SYSTEM

- Extensive backboard selection
- Optional bolt-on TuffGuard™ backboard padding available in several colors
- Unique anchor system allows perfect pole leveling and easy pole removal if you move.
- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)
- Our trademarked Spring Assist™ aids the crank, making goal adjustments effortless. The rim height indicator shows exact height of basket.

Complete System

- EZ Crank™ adjustment allows infinite height adjustment from 10' to 6'6"

- All First Team goals are "direct mounted" to eliminate backboard breakage when players hang on the rim.
- Post to backboard extension distance is 48" with rim at 10' (Extension distance increases as rim height is lowered)

Stainless steel
EZ Crank™!
Ensures lifelong
performance!

The Titan offers infinite adjustability, maximum rigidity, maximum durability and performs like it came straight out of the arena!

The Titan's massive 6" square, 3/16" thick vertical post and extra heavy-duty dual-strut extension arm provide the toughest, most rigid standard in the industry. The post is set back 4 feet from the backboard to maximize safety. The bolt down anchor footing allows you to easily relocate the unit if you move.

Our EZ-Crank™ adjustment means players of any age, size or ability can change the rim height. To adjust, simply turn the crank handle. The Titan is infinitely adjustable from 10' down to 6'6". The rim height indicator shows the height of the rim.

Our "Double Spring-Assist" makes raising and lowering the goal easier even with our regulation size 42"x72" backboards.

First Team offers an array of backboards and rims with the Titan. Our Response™ tempered glass backboard offers the same look and authentic ball rebound enjoyed by college and professional players.

For added safety, pole padding and backboard padding are available for most Titan packages.

Every Titan package comes with a Lifetime Superior Warranty.
