

First Team Sports, Inc. | FT170D Double Rim Fixed Goal

1. **GOAL DESIGN** - Rim shall consist of two official sized 5/8" diameter steel rings welded together at no less than six places. Netlock system shall be of a continuous type so as to reduce netlock breakage common with individually welded netlocks. The rim shall be of institutional quality with all structural components being no less than 3/16" thick. Rings shall be supported by a 3/16" x 1 1/2" rim support that is welded around 60% of the bottom ring. Rim shall be punched to attach on any standard front mount backboard, have an orange powdercoat finish and include a heavy-duty nylon net. Mounting hardware shall also be included. Rim shall carry a 2-Year Superior Warranty and weigh approximately 18#.
