

## First Team Sports, Inc. | FT170 Double Rim Rear Mount Fixed Goal

1. **GOAL DESIGN** - Rim shall consist of two official sized 5/8" diameter steel rings welded in no less than six places. Netlock system shall be of a continuous type so as to reduce netlock breakage common with individually welded netlocks. The rim shall be of institutional quality with all structural components being no less than 3/16" thick. A 1"x 3/16" ring support shall welded around 60% of the bottom ring. Rim shall be punched to attach on any standard rear mount backboard, have an orange powdercoat finish and include a heavy-duty nylon net. Mounting hardware shall also be included. Rim shall be made in the USA, carry a 2-Year Limited Warranty and weigh approximately 23#.
