

First Team Sports, Inc. | FT170 Front Mount Fixed Goal

1. **GOAL DESIGN** - Rim shall consist of an official sized 5/8" diameter steel ring. Netlock system shall be of a continuous type so as to reduce netlock breakage common with individually welded netlocks. The rim shall be of institutional quality with all structural components being no less than 3/16" thick. A 3/16" diameter ring support shall strengthen around 60% of the bottom of the ring. Rim shall be punched to attach on any standard front mount backboard, have an orange powdercoat finish and include a heavy-duty nylon net. Mounting hardware shall also be included. Rim shall carry a 1-Year Limited Warranty and weigh approximately 15#.
