ALUMICOLOR

Achieve new levels of brilliance and clarity with our exclusive **ALUMICOLOR** technology.

We will replicate the finest details of your photograph or illustration in spot color or four-color for applications as varied as:

- Interpretive and way-finding signage
- Inserts into cast signage
- Public art pieces
- Permanent barcodes
- OEM equipment

ALUMICOLOR works by sealing dyes into anodized aluminum, not by printing digitally onto plastic or laminate. That's why we offer a one-year warranty for exterior applications and a 10-year warranty for interior use.

Call us at 800.950.1317 to see if **ALUMICOLOR** is right for your application.

Maximum Print Area
48" x 36" including crop and registration marks per single panel. Larger sizes available by "tiling" and laminating to full-size backing plates.
No minimum size required.

Art Requirements
High resolution Illustrator .pdf files with embedded fonts and crop marks preferred. All blacks 100% black not CMYK. Same applies to spot colors.
Minimum 300 dpi CMYK at finish size for picture images.
.tiff files preferred.

Thickness
1.0 mm. Thicknesses greater than 1.0 mm are achieved by laminating to desired backing plates on any rigid substrate.

Colors
All halftone graphics down to 8% achieved. Spot colors can be matched to the PMS® Solid Coated Matching System. Pantone® Color Matching is available.

Corner Radius
From $\frac{1}{16}$" to 2" or larger on request.

Holes
Mounting holes suitable for all applications.

Backing Adhesive (optional)
High-bond, double-sided lamination film applied to rear of plates for easy installation.

Cast Aluminum Plaque with Alumicolor™ Insert
Medium Blue Painted Background • Leatherette Texture • Diamond Shield® Coating

Five Color Alumicolor™ Panel • 24" x 18" x 1mm

Pricing

SIZE Thickness	1 Color	2 Color	3 Color	4 Color or CMYK	5 Color
1 mm ($\frac{1}{32}$")	$0.88	$1.08	$1.30	$1.60	$1.86
